SUMMARY

I dream big and have the motivation to bring ideas to life. In my Internship experience in Business Analyst, I have been inspired by digital solutions' power to transform organizations and their methods for success. My expertise lies in transforming complex data into clear insights, driving strategic decisions and organizational Growth.

SKILLS

Advanced Excel	Tableau	R Programming
MySQL	Power BI	Data Mining
Project Management	Requirment Gathering	Team Management
Software Development Life Cycle	User Acceptance Testing	Agile Project Management
Risk Management	Communication	Exceptional organisational skills

Experience

Ai Variant

June 2024 - Dec 2024

Business Analyst Intern

- Utilized Excel for data manipulation, employing functions and formulas for accurate calculations, pivot tables, and enhancing productivity.
- Applied MySQL for streamlined data management, optimizing performance through complex queries, preprocessing tusks, and seamless storage of large datasets.
- Used Power BI and Tableau for interactive dashboards, combined different datasets for the complete analysis, and utilized advanced features like DAX for enhanced visualization.

PROJECTS

Zomato Restaurant-Analysis

- In this project involved analyzing Zomato restaurant data using advanced Excel functions and SQL queries, and creating interactive dashboards using Power BI and Tableau.
- The project provided valuable insights into restaurant industry trends related to location, opening trends, ratings, and price ranges.

HR Analytics

- In this project involves diving into HR data to derive some valuable insights that can affect decision-making and enhance organizational strategies.
- This considers some HR metrics as it relates to Total Employees, Attrition Count, Attrition rate, Active employees, Retention rate, and so on.

EDUCATION & CERTIFICATIONS

EXTRACURRICULAR ACTIVITIES

- SSC-2016-Maharashtra State Board - 68%
