

BRIEF SUMMARY

As an integrated MCA student, I combine strong technical understanding with excellent business awareness. I have good verbal and written communication skills, relationship-building skills, and ability. My familiarity with SDLC, and modern IT frameworks, alongside proficiency in Google Workspace, Microsoft Office, and JIRA, allows me to contribute effectively to projects. I'm a proactive, collaborative team player with a solution-oriented mindset, eager to drive projects and thrive in dynamic environments.

KEY EXPERTISE

Problem Solving, Data Visualization, Power BI, Data Analysis, Microsoft Excel, Decision-Making, Google Workspace, Microsoft Office, JIRA, SDLC, Business Analysis, Communications, Business Strategy

EDUCATION

Parul University

Inte. M.C.A. - Artificial Intelligence - PICA | CGPA: 7.59 / 10

2022 - 2026

R.C.Patel Arts, Commerce & Science Jr.College, Shirpur

12th | MSBSHSE | Percentage: 88.67 / 100

2022

D.R.High School &Junior College, Dondaicha

10th | MSBSHSE | Percentage: 82.20 / 100

2020

INTERSHIPS

Bharat Intern | Technology

Data Science Intern

10 Feb, 2024 - 10 Mar, 2024

During this one-month virtual internship, I worked as a Data Science Intern at Bharat Intern, where I completed two key projects that enhanced my skills in data analysis, machine learning, and data visualization. The internship provided hands-on experience with real-world datasets and practical applications of data science tools and techniques.

PROJECTS

Bookstore Management System

Mentor: Dampy Singh

Key Skills: HTML, CSS, NodeJS, ReactJS, MongoDB

The Bookstore Management System is a MERN stack web application designed to simplify online book selling and management. It enables customers to search and buy books, while admins manage inventory, users, and orders. Key features include user login, shopping cart, order tracking, and a secure admin dashboard, making bookstore operations more efficient and user-friendly.

Movie Recommendation System

Mentor: Tanmay Shah

Key Skills: Python, Scikit-Learn, Database, HTML/CSS

The Movie Recommendation System suggests movies to users based on their preferences and viewing history using machine learning techniques like collaborative filtering, content-based filtering, or a hybrid approach. It analyzes data such as user ratings, genres, and tags to provide personalized and accurate movie recommendations, enhancing the overall user experience.

Credit Card Financial Dashboard

Mentor: Rishabh Mishra (youtuber)

Key Skills: Power BI, SQL, Excel, DAX

This project involved designing and developing a Credit Card Financial Dashboard using Power BI to help visualize and analyze key financial metrics related to credit card usage and performance. The dashboard provides an interactive, user-friendly interface for monitoring trends, identifying risks, and supporting decision-making in credit card portfolio management.

ASSESSMENTS / CERTIFICATIONS

Data Analytics Bootcamp

Key Skills: Python (Programming Language) · SQL · Microsoft Excel · Microsoft Power BI · Tableau

Data Science BootCamp - From Analysing Data To Creating ML Models

Key Skills: Data Science · Data Analytics · Python (Programming Language) · Natural Language Processing (NLP)

Data Analyst Certification

React JS Course

Python

PHP and MySQL

EXTRA CURRICULAR ACTIVITIES

- PwC Switzerland Power BI Job Simulation on Forage - August 2024
- Deloitte Australia Data Analytics Job Simulation on Forage - April 2025
