## PROFESSIONAL SUMMARY

Results-oriented Business Analyst with hands-on experience in data analysis, stakeholder communication, and business process optimization. Proven ability to gather business requirements, write BRDs and user stories, perform root cause analysis, and deliver actionable insights using data-driven decision-making. Proficient in SQL, Excel, and Power BI to identify KPIs, trends, and business improvement opportunities. Adept at collaborating with cross-functional teams in Agile/Scrum environments.

## SKILLS

**Business Analysis:** Requirements Gathering, BRD, FRD, User Stories, Use Cases, Gap Analysis, SWOT Analysis

**Tools & Techniques:** SQL, Advanced Excel (Pivot Tables, VLOOKUP), Power BI, Tableau, JIRA, Agile/Scrum, Wireframing

**Data Analysis:** Data Cleaning, KPI Tracking, Data Validation, Root Cause Analysis

**Technical:** Python, JavaScript, React, HTML/CSS, Django, MySQL, MongoDB

**Soft Skills:** Stakeholder Management, Communication, Problem Solving, Presentation Skills

## WORK EXPERIENCE

### Data Analyst Intern([Accenture](#))

Dec 2024 - Feb 2025

**Project Understanding:** Analyzing and comprehending project requirements and objectives.

**Data Cleaning & Modeling:** Cleaned and analyzed large datasets using SQL to extract key metrics and KPIs for reporting.

**Data Visualization & Storytelling:** Developing effective data visualizations and translating data into actionable insights for stakeholders.

**Client Presentations:** Presented insights to stakeholders, contributing to BRD development and prioritizing features in Agile sprints..

### Marketing Intern (SAPA)

**Social Media Management:** Managed and grew the company's social media presence across platforms, increasing

**Trend Analysis:** Researched trending topics using Google Trends to create relevant and engaging content .

**Strategy Development:** Worked directly with the founder to develop and execute social media strategies aligned with business goals.

## EDUCATION

### Bachelor of Engineering (Electronics & Telecommunication)

June 2018 -May 2022

Vishwakarma Institute of Information Technology

CGPA 8.3/10

### Class 12<sup>th</sup> - HSC

Aug 2017 – May 2018

Vidyabharti Mahavidyalaya

Percentage 76.03%

## PROJECTS

### Business Process Optimization Analysis

Collaborated with a retail company to identify inefficiencies in their inventory and sales processes.

Conducted stakeholder interviews, gathered functional requirements, and documented business needs using BRDs.

Demonstrated use of joins, aggregations, and subqueries for business questions.

### Movie Database (SQL)

Designed a relational SQL database (MovieDB) with primary/foreign keys, demonstrating data modeling skills.

Implemented data relationships and manipulation, preparing data for future analytical tasks.

Analyzed sales and inventory data using SQL and Excel to identify stock shortages, excess inventory, and product return patterns.

### Twitter Spam Classification

Built and tested a machine learning model to classify tweets as spam or not.

Performed data preprocessing, feature selection, and accuracy tuning.

Useful for sentiment analysis or brand monitoring in business settings.

## ACHIEVEMENTS

### PATENT - Fruit Detection using Deep Convolutional Network ( [Link](#) )

Tested a number of fruit images and checked whether the predicted label is correct or not. As we have received very good accuracy, the CNN model will suddenly predict the correct label. We can run the entire process by tuning the parameters to get better performance if we get some incorrect labels as well.
