Education

Hemvati Nandan Bahuguna Garhwal University <i>Bachelor of Technology in Computer Science Engineering, CGPA - 7.27/10</i>	Sept. 2020 – June 2024 <i>Uttarakhand</i>
Trident Public School <i>Senior Secondary Education - Physics, Chemistry and Math</i>	March 2018 – March 2019 <i>Bihar</i>
St Xavier's Jr Sr School <i>Secondary Education - Science and Math</i>	March 2016 – March 2017 <i>Bihar</i>

Experience

Masai School <i>Data Science Internship</i> - Developed data pipelines using Python, SQL, and pandas to process data for over 20,000 students, reducing processing time by 30% and improving data accuracy. - Automated ETL workflows using cron jobs and task schedulers, reducing manual workload by 80% and enabling near real-time tracking of student performance. - Engineered features and developed early warning indicators to identify at-risk students, contributing to a 5% increase in retention and 10% improvement in success rates. - Analyzed structured and semi-structured data from 10+ internal systems using MongoDB and pandas, generating 20+ KPIs to support academic decision-making. - Created interactive dashboards and exploratory reports using matplotlib and Seaborn, delivering actionable insights and improving learning outcomes.	February 2025 – June 2025
NIELIT Institute <i>Data Science Internship</i> - Developed and optimized Python scripts, including a real-time face recognition system using OpenCV, improving processing speed and accuracy. - Preprocessed and analyzed image data for effective face detection and feature extraction.	June 2023 – July 2023

Skills

Technical Skills: Python (Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn), SQL, MySQL, MongoDB, Jupyter Notebook, Git, Microsoft Excel, Power BI, Tableau, Metabase, cron jobs, ETL, Data Cleaning, Data Preprocessing, Feature Engineering, Statistical Analysis, Predictive Modeling, Exploratory Data Analysis, Data Visualization, KPI Generation, Data Structures & Algorithms, DBMS

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Communication, Time Management

Projects

Pizza Sales Insights Analysis <i>Python, SQL, Power BI, Excel</i> Github	May 2024
Analyzed over 50,000 pizza sales records using Python and SQL to identify 15% growth opportunities, delivering interactive Power BI dashboards and Excel reports that improved inventory planning and boosted sales efficiency by 12%.	
T20 Cricket Player Analysis <i>Python, Power BI, Excel</i> Github	February 2024
Processed and analyzed 10,000+ player match records to evaluate batting and bowling metrics, creating Power BI dashboards that enabled data-driven insights to improve player selection strategies by 20%.	
Plant Leaf Disease Detection <i>Python, OpenCV, NumPy, TensorFlow, Keras</i> Github	December 2023
Built a convolutional neural network trained on 87,000+ plant leaf images, achieving 92% accuracy in disease detection, aiding early crop disease diagnosis through automated image classification.	
Facial Recognition System <i>Python, OpenCV</i> Github	June 2023
Developed a facial recognition system capable of detecting and identifying faces in real-time with 95% accuracy, using OpenCV for efficient feature extraction and image processing on live video feeds.	

Certifications and Achievements

- Ranked 1st in Hacker-Rank Coding Challenge organized by college. [Link](#) [🔗](#)
- Completed Honeywell Cybersecurity Training Certification, gaining in-depth knowledge of cybersecurity practices and protocols. [Link](#) [🔗](#)
- Volunteered at Ananta College Fest 2k23, contributing to event organization and coordination. [Link](#) [🔗](#)
