PROFESSIONAL SUMMARY

Results-driven **Business Analyst** with a strong foundation in **data analysis, business intelligence, and process optimization**. Proficient in **SQL, Power BI, Python, and Agile methodologies**, with experience in gathering requirements, analyzing business processes, and delivering data-driven insights to enhance decision-making. Adept at working with stakeholders to identify opportunities, streamline operations, and drive business growth.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

GLA University, Mathura | Jun 2023

TECHNICAL SKILLS

- **Business Analysis:** Requirement Gathering, Process Mapping, Stakeholder Management, Business Process Improvement
- **Data Analysis & BI:** SQL, Power BI, Excel, Python (Pandas, NumPy), Data Visualization
- **Database & Reporting:** MySQL, PostgreSQL, ETL (Extract, Transform, Load), Dashboard Development
- **Methodologies:** Agile, Scrum, SDLC, UAT (User Acceptance Testing)
- **Soft Skills:** Critical Thinking, Problem Solving, Communication, Collaboration

EXPERIENCE

Technosters Technologies OPC Pvt Ltd.

Data Analyst

Agra, Uttar Pradesh | Feb 2024 – Jan 2025

- Analyzed and structured data related to sales, market research, and customer behaviors, leading to a **20% improvement in data-driven decision-making**.
- Utilized automated tools for data extraction and preprocessing, reducing manual effort by **40%** and enhancing data accuracy.
- Developed and maintained databases, optimizing data storage and retrieval, resulting in a **30% increase in processing efficiency**.
- Applied statistical methods to identify trends and generate insights, leading to a **15% increase in business forecasting accuracy**.

Peoplelink Unified Communications Pvt Ltd.

Associate Software Engineer Trainee

Hyderabad, Telangana | Jul 2022 – Apr 2023

- Gathered and analyzed business requirements, ensuring seamless communication between stakeholders and technical teams, improving project clarity by **30%**.
- Conducted **data analysis using SQL and Power BI**, optimizing reporting processes and reducing manual effort by **40%**.
- Assisted in the development of dashboards and business reports, enabling leadership to make informed strategic decisions.
- Collaborated with cross-functional teams to streamline operational workflows, enhancing efficiency by **20%**.
- Performed **User Acceptance Testing (UAT)** to validate system functionality and ensure business requirements were met.

ADDITIONAL SKILLS

- Requirement Documentation | KPI Analysis | Market Research | A/B Testing | Data-Driven Decision Making
- Stakeholder Communication | Competitive Analysis | Business Intelligence | Workflow Automation

PROJECTS

Uber Trip Analysis – Power BI Dashboard

- Designed and deployed **3 interactive dashboards** in **Power BI**, analyzing over **50,000+ Uber trip records**.
- Developed and visualized **6+ core KPIs** including **Total Bookings**, **Avg Trip Distance**, and **Booking Value** to evaluate trip performance.
- Used **dynamic measures, slicers, bookmarks, and drill-through** to enhance user interactivity and **boost analysis efficiency by 70%**.
- Delivered insights on **peak demand hours, top-performing locations, and vehicle preferences**, supporting **data-driven decisions** for pricing and resource allocation.

Blinkit – Sales, Customer, and Inventory Performance Analysis

- **Performed in-depth sales analysis** of Blinkit data in **Excel**, identifying trends in **Total Sales, Avg. Sales, and Ratings**.
- **Built dynamic dashboards** to visualize performance by **Fat Content, Item Type, and Outlet Attributes**.
- **Segmented KPIs** (Sales, Items Sold, Ratings) by **Outlet Size, Type, and Location** to uncover operational patterns.
- **Delivered actionable insights** to optimize **inventory allocation** and improve **customer satisfaction**.

Netflix – Movie Data Analysis

- Analyzed a dataset of **9,000+ Netflix movies** to generate business insights for content strategy.
- Identified the most **frequent genres, highest/lowest voted** movies, and their popularity scores.
- Discovered the **year with the highest number of releases** using time-based analysis.
- Delivered **actionable findings** to support **recommendation algorithms** and content acquisition planning.

E-Commerce Sales Analysis

- Conducted **monthly sales and profit analysis** to identify trends and performance fluctuations.
- Determined **highest and lowest sales months, categories, and sub-categories** using interactive visualizations.
- Analyzed **profit distribution by category, sub-category, and customer segments**.
- Calculated **sales-to-profit ratio** to derive business insights **for strategic decision-making**.

CERTIFICATIONS

- **IBM Data Science Professional Certificate** – Coursera
- **Power BI Data Analyst Associate** (In Progress)
