PROFESSIONAL SUMMARY

AI Engineer and Data Scientist specializing in Machine Learning, NLP, LLMs, and Generative AI. Skilled in developing AI systems to solve complex business problems and drive data-driven decision-making.

EDUCATION

G. H. Raison College of Engineering and Management, Pune
B.Tech in Artificial Intelligence

Sep 2021 – May 2025
Pune, Maharashtra

EXPERIENCE

AB Infotech Solutions Pvt. Ltd.
AI Intern

June 2024 – Dec 2024

- Built machine learning models for customer churn analysis (Scikit-learn, Python).
- Performed data analysis and visualization using Pandas, Matplotlib, Seaborn.
- Developed recommendation systems to enhance user engagement.
- Automated reporting solutions (Python, Tableau) for business analytics.

PROJECTS

OrthoTrack AI

Python, OpenCV, TensorFlow, Flask, React Native

- Developed a full-stack AI-powered orthopedic rehabilitation platform enabling real-time pose estimation through camera-based motion tracking.
- Implemented accurate pose detection with OpenCV and TensorFlow to monitor exercise correctness without wearables.
- Built a REST API backend in Flask integrated with a React Native mobile frontend for cross-platform accessibility.
- Engineered dashboards and interactive reports for session progress tracking, accessible by both patients and doctors.

AI CV Analyzer

Python, OpenCV, Machine Learning, OCR

- Designed an AI-based OCR tool to extract and analyze resume content using OpenCV and Tesseract.
- Automated candidate screening through machine learning-based classification of resumes.
- Streamlined recruitment workflows by improving accuracy and reducing manual shortlisting efforts.

Automatic Vehicle Number Detection and Recognition

Python, OpenCV, CNN

- Engineered a CNN-based vehicle number plate recognition system achieving 90% accuracy.
- Applied computer vision techniques for real-time vehicle tracking and automated monitoring.
- Reduced manual intervention in vehicle identification processes through automation.

TECHNICAL SKILLS

Languages: Python, SQL

ML & AI: Data Preprocessing, Scikit-learn, Supervised/Unsupervised Learning, Reinforcement learning, Matplotlib

Deep Learning: TensorFlow, Keras, NLP, OpenCV, CNN, RNN, LSTM, Transformers

LLMs & GenAI: LangChain, RAG, Prompt Engineering, Hugging Face, OpenAI, Vector Databases

LEADERSHIP & EXTRACURRICULAR

Student Representative, Samaj Kalyan Hostel – Pune, India
Management Head

Jan 2022 – May 2025
Pune, Maharashtra

- Led various hostel activities and served as a liaison between students and administration, improving communication and resolving issues efficiently

CERTIFICATIONS

Data Scientist – NASSCOM (IT-ITeS Sector Skills Council) Contributor to DeepML.io, solving real-world machine learning problems.
