Education

Jagdish Sheth School of Management
Post Graduate Diploma in Management (PGDM)
University of Madras
Bachelor of Science (Physics)

July 2023 – May 2025
Bengaluru, Karnataka
June 2018 – May 2021
Chennai, Tamil Nadu

Technical Skills

- Technical Skills:** SQL, Python, Data Visualization (Power Bi), Azure Databricks, R Programming, Advanced Excel.
- Business Skills:** Business Requirement Analysis, Project Management, Strategic Market Research, Stakeholder management, Requirements Gathering, Problem Solving, Stakeholder Collaboration, BRD & FRD Creation.

Experience

- Cognizant Technology Solutions** **October 2021 – October 2022**
Programmer Analyst **Chennai, India**
- Analysed product data to identify trends and optimize user experience, driving data-backed business decisions.
 - Optimized SQL queries for data extraction and reporting, reducing processing time by 20% and improving efficiency.
 - Developed interactive Tableau dashboards, enhancing stakeholder insights and increasing engagement by 30%.
 - Conducted 100+ functional and regression tests, ensuring data accuracy and reducing defects by 15%.
 - Collaborated with cross-functional teams to refine business requirements, accelerating project timelines by 10% and improving client satisfaction by 15%.

Academic Project(s)

- Blinkit Operations Dashboard Using Power BI** **August 2024 – September 2024**
- Created a **Power BI dashboard**, enhancing decision-making efficiency by **12%** and providing real-time data access.
 - Processed **5,000+** rows using advanced **DAX formulas**, improving marketing strategies by **15%**.
 - Improved reporting processes, increasing operational proficiency by **20%** and reducing fulfilment time by **10%**.

- Cricket Player Performance and Team Dynamics Analysis** **May 2024 – July 2024**
- Implemented SQL queries in Databricks to analyse player performance metrics, identifying top performers and improving data-driven decision-making by 30%.
 - Explored winning patterns and match outcomes, uncovering key strategies that contributed to a 25% improvement in team effectiveness.
 - Aggregated and visualized team performance data, delivering insights that enhanced strategic planning and player development by 20%.

- Sales Forecast Prediction Using Keras Functional API** **May 2024 – July 2024**
- Built a multi-input neural network using Keras Functional API and TensorFlow, improving daily sales prediction accuracy by **28%**.
 - Integrated LSTM layers and optimized the model using RMSprop and MSE, achieving a **93% model accuracy** and reducing prediction error by **20%**.
 - Implemented an iterative forecasting pipeline using 4 years of historical data for training and 1 year for testing, enhancing forecasting reliability by **25%**.

Certificates

- Snowflake for Data Science: Intro to Snowpark ML – Coursera **October 2024 - November 2024**
- Fundamentals of Business Analysis – Coursera **April 2024 - May 2024**
- SQL for Data Science – Coursera **February 2024 - March 2024**
- Excel Beginner to Advanced – Udemy **May 2024 - June 2023**
