Professional Summary

I am a passionate and self-motivated Web Developer with hands-on experience in building responsive, user-friendly web applications using technologies like React.js. I also have working knowledge of Python, JavaScript, SQL, and Excel. I enjoy solving real-world problems through clean and efficient code and am always eager to learn and grow in a collaborative environment. Recently, I worked on a mini project titled Customer Feedback Data Analysis, where I used Excel to analyze customer responses, identify patterns, and draw insights to support business decisions.

Technical Skills

- **Data Analysis:** SQL, Excel
 - **Tools:** MS Office, Basic Tableau
 - **Programming:** JavaScript, React.js
 - **Other:** Python Basics, Canva (Presentation Design)
-

Certifications

- Data Analytics Essentials – Cisco Networking Academy
 - The Complete Python Programming Course – Udemy
 - MySQL Basics – Great Learning
-

Education

- **B.Tech. in Computer Science**, Shri Dadaji Institute of Technology & Science, Khandwa (May 2023)
 - XII (MP Board), Scholar's Den Higher Secondary School, Khandwa (June 2019)
 - X (CBSE Board), Bhandari Public School, Khandwa (June 2017)
-

Training and Internship

Full Stack Development Intern — Ypsilon IT Solutions Pvt Ltd — Jan 2024 – July 2024

- Worked as part of a team to develop web applications using the MERN stack.
 - Gained hands-on experience in frontend development (React.js) and backend (Node.js, Express.js).
 - Collected user feedback and assisted in translating requirements into functional designs.
 - Managed data storage using MongoDB and worked on RESTful API integration.
 - Enhanced system security by implementing JWT authentication and bcrypt encryption.
-

Projects

- **SQL Data Analysis Project:** Worked with relational data from sales and customer tables to derive business insights. Applied SQL joins, aggregate functions, and window functions to uncover trends in revenue, profit, customer behavior, and product performance. Generated insights like top customers, regional sales share, moving averages, and running totals. Focused on query optimization, clean reporting, and real-world business scenarios.
 - **Customer Feedback Data Analysis:** Worked on a mini project using Excel to analyze hotel guest feedback data. Created Pivot Tables, charts, and used formulas to find out which services guests liked the most and where improvements were needed. Summarized key insights to help improve guest satisfaction.
 - **Portfolio Website:** Developed a personal portfolio website using React.js to showcase projects, skills, and achievements. Focused on user experience, responsive design, and clear project communication.
-

Achievements

- Optimized project timelines by clearly understanding client requirements early in the development cycle.
 - Improved team collaboration by effectively documenting and communicating technical needs.
 - Recognized for a strong problem-solving approach during project development and delivery.
