Education

Sandip Institute of Technology And Research Centre, Nashik
Bachelor of Engineering in Electronics & Telecommunication Engineering

Dec 21 – June 25
CGPA: 7.47

A. Garware College of Arts And Science, Pune
HSC[PCMB]

2020 – 2021
Percentage: 85.16%

Internship

ShreeKrushna Lighting Industries, Jalgaon | *Business Development Intern*

Nov-Dec 2023

- Leveraged Excel to analyze large datasets of lighting product performance metrics, identifying key trends and correlations to inform product improvements and manufacturing optimizations.
 - Visualized Performance Insights: Utilized Excel's data visualization capabilities to create compelling charts and dashboards, effectively communicating complex data insights to stakeholders and facilitating data-driven decision-making.
- Developed and implemented Excel-based models to streamline manufacturing processes, reducing costs and improving overall efficiency through data-driven analysis and optimization.

Projects

Crop Yield Prediction(Data Science) | *Python, SQL, Streamlit Python Library*

[Link](#)

- Developed a web-based crop yield prediction tool using Python and the Streamlit library, providing farmers with **accuracy of 98%** in forecasts to optimize their agricultural practices.
- Employed SQL to manage **2200 datapoints** and clean data and facilitate data-driven predictions Hosted the application on Cloud, ensuring scalability, reliability, and security for uninterrupted access.

Zomato Data Analysis Project | *Python, Pandas, Excel*

- Conducted a comprehensive data analysis project on Zomato datasets using Python, focusing on key metrics such as restaurant ratings, customer reviews, cuisine popularity, and pricing trends.
- Utilized Pandas for data cleaning, manipulation, and preprocessing to ensure accuracy and consistency in the dataset.
- Generated actionable insights to help businesses understand user preferences and optimize their strategies for enhanced customer satisfaction.

Sandip Helping Hands Club[NGO] | *HTML, CSS, Javascript, Bootstrap.Js*

[Link](#)

- Developed a comprehensive and user-friendly website for the Helping Hands NGO using **HTML, CSS, and JavaScript** to effectively communicate the organization's mission, vision, and impact.
- Implemented a **responsive design** to ensure optimal viewing experience across various devices, **increasing website accessibility** and enhancing **user engagement**.
- Created **informative and visually appealing web pages**, including pages of content, to convey NGO's activities.

Technical Skills

Languages and DataBases: C++, Python, Javascript, SQL, Excel Advanced, Data Visualization(Excel)

Framework: Bootstrap, React.Js, Django, Streamlit

Other Skills: DSA, OOP, Computer Network, Operating System, AWS Fundamentals, Github

Personal Projects/Awards & Achievements

IEEE Secretary (Web Master)

Quantum Data Analytics Virtual Experience
