Summary

- Detail-oriented and certified **Data Analyst** with hands-on experience in **Python**, **SQL**, **Power BI**, and **machine learning**. Proven ability to work with large datasets, perform **exploratory data analysis (EDA)**, and develop predictive models to drive data-driven decisions. Skilled in **data storytelling**, **dashboard development**, and **business impact analysis**. Strong communicator and collaborator with a passion for solving real-world problems using data.

Project Experience

Hotel Booking Analysis

Role: Data Analyst | **Tools:** Python, SQL, Excel, Google Colab

Duration: May 2024 – Aug 2024

Conducted **EDA** on hotel booking datasets to identify customer trends and reduce cancellations. Built predictive models using **Logistic Regression** and **Decision Trees** to forecast booking outcomes. Generated actionable insights to improve customer retention and optimize hotel strategy.

Mobile Price Range Prediction

Built a classification model using Random Forest and feature selection techniques. Achieved **85% accuracy**, enabling comparison of smartphones by specs.

Netflix Movie and TV Show Clustering

Applied NLP techniques and K-Means clustering on Netflix data. Enhanced recommendation systems and user segmentation.

Retail Sales Prediction

Forecasted daily sales for **Rossmann drugstores** using **ensemble ML models**. Accounted for promotions, holidays, seasonality, and local demographics. Applied **feature engineering**, **parameter tuning**, and **cross-validation** to improve accuracy.

Play Store App Analysis

Analyzed 10,000+ Android apps to reveal market trends and user preferences. Helped developers optimize **monetization** and **app store visibility**.

Education

B.Tech (Mechanical)

Dr. Babasaheb Ambedkar Marathwada University,

Chh. Sambhajinagar (Aurangabad)

2024 - CGPA : 7.83

Skills

- **Languages:** Python, SQL
- **Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Plotly
- **ML Techniques:** Regression, Classification, Decision Trees, Clustering, NLP
- **Tools:** Power BI, Excel, Google Colab, Jupyter Notebook
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Data Skills:** EDA, Feature Engineering, Data Cleaning, Model Evaluation, Visualization

Certification

- DATA Science Certification Course - ALMABBETER(2024)
- Python Certification Course - Udemy(2022)

CamScanner
