

RISHU RAJ

Python Backend Developer

Kolkata, WB - India

✉ rishuydvatwork@gmail.com

☎ +91-7014157321

Summary

- Result-oriented **Python Backend Developer** with 2+ years of experience in building scalable backend applications.
- Proficient in **Django, Flask, PostgreSQL, AWS EC2, and Docker**.
- Skilled in designing **RESTful APIs** and deploying **cloud-native solutions**.
- Expertise in building **dynamic dashboards** and **real-time analytics APIs**.
- Focused on **server performance optimization** and backend architecture.
- Delivered impactful projects in **the education, insurance, and manufacturing** domains.
- Strong emphasis on **performance, scalability, and automation** in every project.

Technical Skills

- Languages: Python, HTML, CSS
- Frameworks: Flask, Django
- Libraries & Tools: Pandas, Requests, PyMongo, OpenCV, PyInstaller
- Databases: SQL, MongoDB, PostgreSQL
- Tools & Platforms: Git (Version Control), Postman, Docker, FileZilla, AWS EC2
- Operating Systems: Linux, Windows
- Concepts: RESTful APIs, CI/CD Deployment, AI/ML (YOLO, NLP), Server Deployment, Database Optimization

Professional Experience

Payroll: Pentation Analytics Pvt. Ltd., Kolkata

July 2024 – Present

Role: Software Engineer

Project: KPI Tool

Client: Finolex

- Designed and developed a fully dynamic backend system for tracking product sales, targets, and KPIs using Django and PostgreSQL, improving reporting efficiency by 40%.
- Built and optimized REST APIs enabling real-time analytics dashboards, reducing

dashboard load time by 35%.

- Implemented database indexing and API rate-limiting, improving system scalability to handle 3x more concurrent users.

Project: Learning Management System (LMS)

Client: Techno Struct Academy

- Designed scalable backend architecture using Python and SQL, increasing system performance by 20%.
- Successfully deployed an LMS platform with automated CI/CD pipelines, ensuring zero downtime and reducing deployment time by 50%.
- Developed dynamic dashboards for Admins, Mentors, and Students, increasing platform engagement by 25%.

Project: BAGIC Agent 360

Client: Bajaj Allianz

- Developed and implemented a comprehensive performance tracking dashboard for agents, enhancing operational efficiency in premium management by 40%.
- Utilized Python, Flask and SQL to design a scalable backend for the Agent 360 dashboard, enabling seamless tracking of agent targets versus achieved performance.
- Created an API-based trigger system to monitor low-performing agents, automating email notifications and tracking subsequent performance improvements, resulting in a 25% increase in agent re-engagement.

Payroll: Schemaphic System India Pvt. Ltd., Kolkata

Aug 2023 – July 2024

Role: Python AI Developer

Project: Real-time Object Detection

Client: WOWYOW

- Implemented real-time object detection using YOLO, achieving 92% accuracy
- Developed detection pipelines with OpenCV, reducing latency by 30%.
- Integrated with ReactJS frontend, increasing usability by 50%.
- Fine-tuned YOLO models for high accuracy, reducing errors in detection by 20%.

Project: Candidate Interview Assistant

Client: Internal Project

- Developed a resume parsing system integrating HTML, CSS and MongoDB with NLP and Named Entity Recognition (NER) techniques.
- Built an NLP-based resume parsing engine achieving 90% extraction accuracy.
- Integrated the system with a career page, enabling candidates to upload CVs, which were automatically parsed to extract details and store them in MongoDB.
- Implemented dynamic interview question generation based on the candidate's skills and experience extracted from resumes.

Payroll: Capgemini India Pvt. Ltd., Mumbai

Feb2023 – May 2023

Role: Analyst Intern

Project: Flight Management System

- Gained hands-on experience in Java Full Stack Development, working on both front-end and back-end components of the application.
- Gained exposure to database management by working with MongoDB and MySQL, learning to perform CRUD operations efficiently.
- Learned agile methodologies, participating in daily stand-ups, and sprint planning.

Certifications

- Programming for Everybody (Getting Started with Python) - Coursera
- IBM Machine Learning with Python - Coursera
- IBM Introduction to Computer Vision and Image Processing – Coursera

Education

🎓 **Lovely Professional University, Punjab, India**

Master of Computer Applications (MCA) | 2021-2023

🎓 **Lovely Professional University, Punjab, India**

Bachelor of Computer Application (BCA) | 2018-2021
