samradhijain401@gmail.com | +91-8109301238 | <https://www.linkedin.com/in/samradhi-jain6145022b9>

I am a Computer Science Engineer with hands-on experience in Python development and AI implementation. I have worked on projects involving Large Language Models (LLMs), Generative AI, and chatbot development using tools such as LangChain and Flask. I am eager to apply my skills in real-world settings and contribute to innovative, forward-thinking tech teams

Education

- BTech– CSE, Shri Vaishnav Institute of Information and Technology, 2021-25 | SVVV CGPA–8.84
- 12th (Senior Secondary Examination) | CBSE Board, 86% | 2021
- 10th (Secondary Examination) | CBSE Board, 87% | 2019

Technical Skills

- **Programming Languages:** Python, SQL
- **AI Technologies:** LangChain, OpenAI API, Large Language Models (LLMs), Generative AI, Pinecone Vector Database
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib
- **Web Technologies:** Flask, REST APIs
- **Tools & Platforms:** Docker, Cloud Computing (AWS/GCP)
- **Soft Skills:** Analytical Thinking, Problem-Solving, Team Collaboration, Communication

Academic Projects

SQL Chatbot for Query Assistance

Python | LangChain | Pinecone | Flask

Built a chatbot to answer SQL queries using LangChain for context management and Pinecone for vector-based document retrieval. Developed the backend with Flask and integrated a simple web interface. Dynamic PDF links were included in responses for enhanced user support.

AI Notes Summarizer

Built a web application using Python, Flask, and Google's Gemini API to summarize lengthy lecture notes and meeting minutes. Enabled users to upload text files or paste content, which the app processes to generate concise summaries highlighting key takeaways. Designed to save time for students and professionals by condensing large volumes of text into clear, easy-to-understand bullet points.

Experience

AI Intern

BatchMaster Software Pvt. Ltd., Indore

March 3, 2025 – June 3, 2025

- Contributed to the development and testing of an AI-powered assistance bot for product support using Python, Flask, and OpenAI API key.
- Researched and evaluated multiple LLM APIs to determine the most cost-effective and high-performing solution.
- Implemented response formatting using regex to improve clarity and consistency in answers.
- Integrated reference links dynamically into bot responses to enhance user experience.
- Dockerized the application for streamlined production deployment and scalability.
- Automated sales order processing by extracting PDFs from emails using Python's imaplib with OAuth 2.0 for authorization, downloading them, and extracting text from PDFs, images, and scanned documents with Python libraries, improving data accuracy and workflow efficiency

Achievements/Certification

- Cloud Computing | NPTEL
- Python | NPTEL
- Network Fundamentals | Infosys
- Website Development | Fluxus IIT Indore
- Received Letter of Appreciation as the Best Member in the Research & Development Department at *Prayatna – Aspiring Dreams (NPO)* for impactful contributions.

Extra-curricular Activities

- **Head of Research and Development**
Prayatna—Aspiring Dreams (NPO) | May 2023–June 2024
Led English and computer education initiatives in government schools; boosted student engagement by 80% through workshops on social issues and career guidance. Organized teacher training sessions for club members, enhancing overall learning outcomes.
