EDUCATION

Indian Institute of Information Technology Pune

B.Tech in Electronics and Communication Engineering, CGPA: 9.47

2022 – 2026

Pune, India

TECHNICAL SKILLS

- **Technical:** Java , C , C++ , Python , JavaScript , ReactJS , NextJS , Node.js , Express.js , SpringBoot , Django , MongoDB, SQL , PostgreSQL , Firebase , Data Structures and Algorithms
- **CourseWork:** DBMS, Object Oriented Programming, Operating Systems
- **Libraries:** Numpy, Pandas, Matplotlib, SkikitLearn, Scipy
- **Soft Skills:** Content Writing, Digital Marketing, Public Speaking, Team Management, Leadership

EXPERIENCE

SDE Intern @Bachatt (\$4M Seed Funding)

May 2025 – July 2025

Java , SpringBoot , PostgreSQL , Jenkins , Kafka

Gurugram

- Developed an **AI-driven test automation framework** at Bachatt using **Postman, TestNG, and Mockito and RestAssured**, creating **180+ test cases** to ensure reliable payment processing and PCI-DSS compliance.
- Integrated testing into the **CI/CD pipeline** using **Jenkins**, reducing testing time by 70% and achieving 85% coverage for critical features like user authentication and transactions contributing to **Rs 1 CR AUM**
- Spearheaded backend integration of **loan offerings with L&T Finance**, designing services to ingest eligible user data from **Kafka**, persist offers in a dedicated database, and manage offer status and expiry logic.

PROJECTS

HireHaven - An AI-based Job Portal

Sep 2024 – Oct 2024

[GitHub Repository](#)

NextJS, Express, Node.js, MongoDB, Mistral, Auth0

- Developed a fully functional AI-powered job portal featuring four core functionalities: **Job Creation, Job Search, Job Management, and Review System**, enabling efficient job matching.
- Integrated **Generative AI** using the **Mistral 7B AI model**, streamlining the process of job description creation, saving 35% of time previously spent on manual input.
- Implemented an **AI-based Interview System** that automatically generates interview questions and evaluates responses for over 100 different job roles, reducing hiring time.
- Employed **Auth0** for secure user authentication, and Curated a **Job Recommendation System** with the help of **Resume Parsing** feature.

Wanderplan

Jun 2024 – July 2024

[GitHub Repository](#) | [Live](#)

React, Firebase, Gemini 2.5 Flash, Redux, Tailwind

- Streamlined a comprehensive **AI-powered** trip planning application allowing users to generate personalized travel itineraries based on preferences used by over 20 users
- Integrated **Cost Tracker** and **Budget Optimization tools** to track expenses and provide **AI-driven financial recommendations**, reducing budget overruns by 15%
- Incorporated **Google Cloud Platform APIS** such **Geocoding , Geolocation** for parsing address and real-time location respectively. **Places and Maps API** for fetching images of places and auto fetching place names upon search improving manual entry time by 25%

ACHIEVEMENTS

- Department Topper with Best Individual CGPA of 9.47: ([View](#))
- CodeClash 2.0 Finalists securing Rank 7 among 1400 participating teams. ([View](#))
- Secured 97.58% in JEE Mains with AIR: 21979: ([View](#))

POSITION OF RESPONSIBILITY

- Content Head at Quantum, Math Club of IIIT Pune
- Content Head at Eclectic, Literary Society of IIIT Pune

Aug 2024 – Present

Aug 2024 – Present

CODING PROFILES

- **CodeChef:** 3-star coder (Rating: 1669) | **Codeforces:** Pupil (Rating: 1213) | **LeetCode:** Knight (Rating: 1956)

CERTIFICATIONS

- **Machine Learning Proficiency:** Finlatics: [View Certificate](#)
- **Postman API Fundamentals Student Expert:** Postman: [View Certificate](#)
