+91-7684934251    abhilash\_b@es.iitr.ac.in    linkedin.com/in/abhilash-bag

## EDUCATION

**Indian Institute of Technology Roorkee**  
Integrated M.Tech in Geological Technology

**November 2020 - July 2025**  
Roorkee, UK

## EXPERIENCE

### Raizzify

**June 2024 - Sept 2024**

Data Analyst

Bhopal, MP

- Developed a Power BI dashboard for real-time financial tracking of KPIs such as revenue, expenses, and profit margins.
- Utilized DAX and SQL to develop custom metrics, identifying inefficiencies and **reducing operational costs by 20%**.
- Presented data-driven insights to stakeholders, enhancing **decision-making efficiency by 15%** and strategic planning.

### Department of Hydrology, IIT Roorkee

**May 2022 - July 2022**

Summer Research Intern

IIT Roorkee

- Developed a **Long Short-Term Memory model** to predict Soil Moisture by using a Deep Learning Neural Network.
- Worked with dataset of **1,781** data points with inputs - Precipitation, Temperature, Humidity, etc. from over **75% of India**.
- Handled every step from data cleaning and feature engineering to model design and evaluation.
- Delivered high predictive performance, achieving a **RMSE 0.09, and correlation coefficients 0.87**, demonstrating strong model accuracy and reliability.
- Applied tools such as **Python, TensorFlow/Keras, NumPy, Pandas, and Scikit-learn** to design, train, and evaluate the model.

## PROJECTS

### Repeat Caller Analysis Dashboard Using Power BI | [Link](#)

**March 2023**

- Engineered a Power BI dashboard featuring **6 charts and 4 key performance indicators (KPIs)**, enabling real-time analysis of repeat caller trends for Google Fiber customer support.
- Automated data updates by merging datasets from three cities in BigQuery using SQL, enabling real-time reflection in Power BI dashboards and **saving 30 hours annually**.
- Completed comprehensive Business Requirements documents, aligning technical requirements with stakeholder expectations and strategic business objectives.

### Employee Churn Prediction Model | [Link](#)

**April 2022**

- Built a logistic regression model with optimized hyperparameters, achieving **83.03% cross-validation accuracy** in predicting employee churn.
- Conducted Data cleaning, Preprocessing, and Exploratory Data Analysis (EDA), identifying satisfaction level, tenure, and salary as the top 3 predictors.
- Delivered actionable insights to improve employee retention strategies.

## SKILLS

- |                      |                    |                    |            |
|----------------------|--------------------|--------------------|------------|
| • Data Analysis      | • Machine learning | • Pycharm          | • Power BI |
| • Data Visualization | • Deep Learning    | • Jupiter Notebook | • Python   |
| • Data Cleaning      | • Anaconda         | • SQL              | • MS Excel |

## LEADERSHIP / EXTRACURRICULAR

- Award for Outstanding Contribution – Cognizance 2023** Recognized for outstanding and significant contributions to organizational activities as **Manager – Events**, leading planning and execution for India's premier technical fest.
- Led a 30-member team to organize 100+ events with a ₹13M budget at IIT Roorkee's annual technical fest, spanning domains like robotics, drones, coding, and finance.
- Mess Secretary Jawahar Bhawan IIT Roorkee** Oversaw operations of the Bhawan Mess, managing food quality, budgeting, hygiene, and overall maintenance.
