SUMMARY

Motivated and adaptable fourth-year BTech student specializing in Computer Science Engineering with a focus on cloud computing. Proficient in Python, C/C++, object-oriented programming, data structures, algorithms, and microservices architecture. Experienced in automated testing, QA processes, and software reliability improvements. Skilled in problem-solving, algorithm design, and troubleshooting system errors, with a proactive approach to delivering scalable and innovative solutions. Successfully contributed to quality assurance and automation enhancements during a past internship at Ciena as a Software Tester, eager to apply technical expertise in Python development to deliver impactful solutions.

SKILLS

Programming Languages: HTML, CSS, Python, C, C++	Object Oriented Programming
Cloud Services: AWS (AWS Cloud Technical Essentials Certified)	DSA
Linux CLI	Problem-solving

PROFESSIONAL EXPERIENCE

QA Software Testing Engineer

Ciena India Pvt. Ltd.

06/2024 – 09/2024

Gurugram, India

- Conducted testing on keyboard operability and accessibility for list view column functions, encountering and resolving defects such as navigation issues with select/unselect hyperlinks and checkbox sub-menus (MCP-158082, MCP-175368, MCP-177825).
- Performed functional testing on the ability to share list filters between users and roles with read-write permissions. Identified complex permission-sharing processes and recommended detailed client documentation.
- Installed MCP AIPA on a Multi-LAN setup, successfully completing the MCP 8.2 installation with guidance, overcoming challenges related to the multi-host configuration.
- Tested network map performance improvements, identifying inefficiencies in loading times and actions such as merging nodes or relocating them within the network.

PROJECTS

Fully Functional Gym Website

HTML5/CSS3, JavaScript, Responsive Design

- Conceptualized, designed, and implemented a fully functional and responsive gym website, elevating the online presence of F1 Fitness.
- Developed a dynamic platform that seamlessly caters to the needs of both gym administrators and members.
- Orchestrated the project, leveraging expertise in HTML5, CSS3, and JavaScript.
- Implemented responsive design for the F1 Fitness website by creating distinct CSS codes tailored for phones, tablets, and computers.

EDUCATION

Senior Secondary School Examination

Mayo International School

07/2021

- Percentage: 79%

Bachelors In Technology, Computer Science with cloud computing

SRM Institute Of Science and Technology

07/2021 – 07/2025

- CGPA: 7.61

CERTIFICATES

AWS Cloud Technical Essentials

Issuing authority: Amazon Web Services

Introduction to Cloud Computing

Issuing Authority: IBM

INTERESTS

Fitness Enthusiast: Actively pursuing a healthy lifestyle through regular exercise.
