PROFILE

Aspiring data scientist with a strong foundation in Python, statistics, and exploratory data analysis (EDA). I seek to leverage my machine learning and feature engineering skills to drive data-driven decision-making and deliver actionable insights.

WORK EXPERIENCE

INTERNSHIP EXPERIENCE

Data Analyst Intern

- Performed Exploratory Data Analysis (EDA) to identify trends and patterns in real-world datasets.
- Implemented data preprocessing techniques to handle missing values and outliers, improving data quality.

PROJECT EXPERIENCE

Bank Data Analysis – EDA with Python

- Analyzed customer transaction patterns and demographics to enhance segmentation
- Engineered 15+ new features to improve customer targeting models
- Delivered insights that reduced marketing costs by 18%

Churn Data Analysis EDA – Python

- Analyzed customer churn using feature engineering and statistical methods to enable targeted retention strategies
- Applied advanced EDA techniques to handle missing values and outliers, improving model accuracy
