EDUCATION

Motilal Nehru National Institute Of Technology

B Tech - Electrical Engineering

2025

Kids Club School, Jaipur

Central Board Of Secondary Education , Rajasthan

2020

Mahapragya International School, Jaipur

Central Board Of Secondary Education , Rajasthan

2018

SKILLS

Programming Languages: Python, SQL

Data Analysis Tools : Power BI, MS Excel, Google Sheets

Libraries/Frameworks: Pandas, Numpy, Matplotlib, Seaborn, Scikit-Learn

Databases : PostgreSQL, Google Analytics, MySQL

Other Skills : Data Cleaning, Data Visualization, Data Cleaning, Machine Learning (Basics)

Soft Skills : Communication Skills, Analytical Thinking, Leadership, Teamwork

EXPERIENCE

Zepto | Data Analyst Intern

Bangalore | Feb 2025-Present

- Analyzing quality metrics like **MDND (0.05%)**, **RTO (1.54%)**, and **DNR (0.24%)** to detect fraud or inefficiencies from the rider side. Developed SQL queries to track suspicious patterns.
- Conducting an in-depth analysis of rider retention across **20+ Stores** to identify churn factors and optimize incentives, leading to a **15%** improvement in retention through data-driven strategies.
- Collaborating with the Product team and EY auditors to audit over **500,000+** Payout transactions, ensuring compliance with IPO regulatory requirements.

PROJECTS

Real Estate Price Predictor (Team Project)

Python , Pandas , Numpy , Matplotlib

- Developed a property price prediction model for Bangalore using Python (**NumPy, Pandas, and Matplotlib**) Enhanced model accuracy by **91.85%** with advanced feature engineering techniques.
- Collected and cleaned over **10,000+** real estate listings from diverse sources, ensuring data integrity and accuracy for effective predictive modeling.
- Created **visualizations** to present model outcomes and insights, enabling stakeholders to make **data-driven decisions**.

HR Analytics Dashboard

SQL and Power BI

- Developed a Power BI dashboard to track HR metrics, resulting in insights like a total employee count of **1,400+**, an attrition rate of **16.12%**, and an average employee age of **37** years.
- Created **visualizations** to highlight attrition by education field, where **24%** of employees with a technical background had the highest turnover, helping HR target retention strategies.
- Utilized SQL for data analysis, calculating department-wise attrition rates, with the highest at **56%** in the RD department and gender-based attrition showing **14.8%** for females and **17%** for males.
