SUMMARY

Motivated and detail-oriented data enthusiast with a Bachelor's degree in Information Technology. Skilled in project documentation (BRD/FRD), data analysis, and stakeholder communication. Familiar with JIRA, Agile methodologies, Power BI, SQL, and Excel. Certified in Business Analysis, Generative AI, Prompt Engineering, and AWS Cloud Foundations. Eager to contribute to AI-driven project management initiatives and team success.

EDUCATION

Bachelor of Engineering - Information Technology - [SCOE, Pune]

Aug 2018- 2024

Savitribai Phule Pune University - 7.8 CGPA

EXPERIENCE

Anudip Foundation | Apprenticeship Data Analyst (Virtual)

Jun 2024 - Nov 2024

- Gained hands-on experience in data analysis using Power BI, Advanced Excel, and SQL, working datasets to extract meaningful insights.
- Designed and published interactive Power BI dashboards and Excel-based reports to track KPIs, trends, and business performance across various scenarios.
- Utilized Advanced Excel features such as pivot tables, VLOOKUP/XLOOKUP, conditional formatting, and data validation to clean, transform, and analyze data efficiently.

TECHNICAL SKILLS

- | | | | | |
|------------------------|-------------------|---------------------|----------------------|----------------------|
| • Python | • SQL | • Power BI | • Advanced Excel | • Data Visualization |
| • Agile Methodology | • JIRA | • Data Integrity | • Documentation | • Project Management |
| • Statistical Analysis | • Data Validation | • Report generation | • Dashboard Creation | • AWS Cloud |

Soft Skills: Problem Solving, Analytical Thinking, Decision-Making, Adaptability, Stakeholder Collaboration

PROJECTS

Amazon Sales Forecasting & Analysis | Python, Visualization, ML Model, Excel, EDA | [GitHub](#)

- Developed a predictive model using linear regression to forecast future sales trends analysis on Amazon, leveraging historical sales data
- Conduct a detailed sales analysis by state, city, fulfillment status, product size, and shipping status to identify key trends and patterns
- Built & validated the linear regression model, enhancing forecast accuracy for future sales and revenue predictions

HR Employee Distribution Report | SQL, Power BI, Excel, Visualization | [GitHub](#) | [Live Dashboard](#)

- Extracted employee data using SQL queries and performed data cleaning to ensure accurate and comprehensive information for analysis
- Designed an interactive report in Power BI, showcasing employee distribution across departments, locations, and other demographics.
- Provided insights on workforce composition, highlighting trends for data-driven HR decision

Healthcare Analysis Dashboard | PowerBI, ETL, DAX, Excel | [GitHub](#) | [Live Dashboard](#)

- Utilized Power BI to visualize key metrics on patient admissions, treatment outcomes, and resource utilization.
- Developed interactive dashboards to monitor staff efficiency, financial performance, & operational trends effectively.
- Compiled comprehensive reports detailing insights and recommendations to improve hospital performance.
