PROFILE SUMMARY

Aspiring Business Analyst with skills in requirements gathering, documentation, and data analysis. Proficient in SQL, Excel, and Power BI to create reports and dashboards that support business decisions. Strong communicator with the ability to work with stakeholders and translate needs into actionable insights.

SKILLS

Business Analysis: Requirements Gathering, BRD/PRD Documentation, Process Mapping, UAT Planning & Testing

Research & Analysis: Competitor Analysis, Secondary Research, Data Analysis, Problem-Solving

Project Management Tools: Jira, Trello, Notion

Reporting & Visualization: Power BI, Excel (Dashboards, Pivot Tables, Reports), Tableau

Technical Skills: SQL, Python (Pandas, NumPy, Matplotlib, Seaborn)

Soft Skills: Stakeholder Communication, Presentation Skills, Critical Thinking, Team Collaboration

WORK EXPERIENCE

Data Analytics Intern-CSRBOX (IBM SkillsBuild)

June 2024 – August 2024

- Successfully completed a 6-week intensive internship program focused on Data Analytics, gaining hands-on experience in Python programming, Machine Learning, and Data Visualization.
- Designed and executed a Climate Change Analysis project, utilizing real-world datasets to analyze trends and patterns in climate data. The project involved data cleaning, exploratory data analysis (EDA), and visualization using Python libraries such as Pandas, Matplotlib, and Seaborn.
- Delivered a final project presentation, showcasing insights derived from the analysis, and received positive feedback from mentors and peers.

PERSONAL PROJECTS

Climate Change Analysis

- Analyzed **120 years of temperature data** (1901–2020) from global climate portals using **Python (Pandas, NumPy)**.
- Created **10+ impactful visualizations** (Seaborn, Plotly, Matplotlib) to showcase climate trends and anomalies.
- Identified **top 10 affected states** and built a **zone-wise classification model** across 6 regions.

HR Analytics Dashboard | Power BI, Excel

- Built interactive dashboards in Power BI to monitor **attrition, employee performance, and engagement metrics**.
- Designed visual KPIs and trend reports that **enabled data-driven HR decision-making**.

Marketing Mix Modeling (MMM) Case Study | Python, Excel

- Analyzed **122 weeks of sales and marketing data** to evaluate the impact of advertising, promotions, and seasonality.
- Delivered **actionable recommendations** that optimized marketing spend and supported sales growth.

EDUCATION

Bachelor's Of Technology in Computer Science and Engineering

DR. A.P.J Abdul Kalam Technical University, Uttar Pradesh

Graduation Year: 2025
