

AKASH SHETTY

+917676589717 | shettyakash961@gmail.com | Bengaluru

SUMMARY

Aspiring Data Analyst with hands-on experience in data preprocessing, visualization, and model development using Python, SQL, Excel, and Power BI. Comfortable working with structured and unstructured datasets. Open to relocation and flexible with working hours. Strong communication skills and eager to contribute in a fast-paced, data-driven environment.

EXPERIENCE

Data Science and Machine Learning Intern, Compsoft Technologies | Nov 2024 - May 2025

- Performed data preprocessing, exploratory analysis, and visualizations using Pandas, NumPy, Matplotlib, Seaborn, and Plotly. Developed time series forecasting and machine learning models using scikit-learn.
- Evaluated model performance using accuracy, precision, and recall.

Web Development Intern, Varcons Technologies | Oct 2023 - Dec 2023

- Developed and designed a Web Template for an Interactive Music Player using HTML, CSS, and JavaScript.
 - Gained hands-on experience in front-end web development, improving skills in responsive design and user interaction.
-

EDUCATION

Don Bosco Institute of Technology

BE in Artificial Intelligence and Data Science | CGPA : 8.05

Bengaluru

2021-2025

Varasiddhivinayaka pu college keradi

Board of Intermediate Education | 84%

Kundapura

2019-2021

Govt junior college khambadakone

Secondary Education | 80%

2018-2019

PROJECTS

Design & Implementation of a Multi-Tools AI Hub (Oct 2024 - Jan 2025)

- Built an AI-powered tool that combines face recognition, text translation, and image processing etc.
- Used Python, OpenCV, and Tkinter to develop the system.
- Made the platform user-friendly and efficient for different tasks.

Hostel management system (Feb 2024 - Apr 2024)

- Developed a comprehensive website for managing hostel operations, including room allocation, fee tracking, and student records.
- Utilized SQL, HTML, CSS, and PHP with XAMPP to implement an efficient database-driven solution.
- This project emphasized database management systems (DBMS) concepts and streamlined administrative tasks.

Language Translator Tool(Jul 2024 - Aug 2024)

- Developed English-to-Hindi language translator tool for government websites, enhancing accessibility.
- Utilized Python, Flask, and deep_translator library for accurate translations. Integrated gTTS library for audio pronunciations. Designed intuitive UI using HTML and CSS.

AI-Powered Disease Risk Prediction System (Apr 2025-May 2025)

- Built a Flask web app to predict diabetes, heart, and kidney disease risk using logistic regression on clinical data.
 - Built a Flask web application with user-friendly input forms and real-time predictions, using features like Glucose, Blood Pressure, BMI, and Age; deployed lightweight .pkl models for instant output.
-

CERTIFICATIONS

Data Analytics – Deloitte | June 2025

Data Structures and Algorithms – Infosys springboard | Dec 2024

Full Stack Web Development Internship – Varcons Technologies | Oct–Dec 2023

Data Science and Machine Learning - Compsoft Technologies | Nov 2024 - May 2025

SKILLS

- Python, SQL, MySQL
 - Data Science and Machine Learning : Matplotlib, Pandas, NumPy, Scikit-learn, ML Algorithms
 - Web Development Technologies: HTML, CSS, JavaScript, React.js, Node.js, MongoDB
 - Data Tools : Excel, Microsoft Word ,Power BI, Tableau.
-
