## SUMMARY

---

B.Tech graduate in Computer Science with over 6 months of internship experience in data analysis, report generation, and dashboard development. Skilled in MS Excel (including VLOOKUP, Pivot Tables, and VBA Macros), Power BI, and SQL. Adept at crafting daily/weekly/monthly reports, managing KPIs, and communicating operational insights through visual dashboards.

## EXPERIENCE

---

### Data Analytics Internship AI Variant

Sep 2024 – Mar 2025

#### Key Responsibility

- Designed and automated daily/weekly/monthly reports using Excel and Power BI for operational teams, utilizing Pivot Tables, VLOOKUP, and charts.
- Built and modified Excel reports with automation using VBA macros.
- Reviewed and integrated data from Excel, SQL, and Power BI, ensuring consistency in performance reports.

## PROJECT

---

### Zomato Analytics - Excel | Power BI | Tableau | My SQL

- Analysed Zomato's data using Excel, Power BI, and Tableau to extract insights on customer preferences, restaurant performance, and market trends.
- Utilized geospatial analysis to map customer distribution and restaurant density.
- Ensured project success through effective team coordination, timely completion, and thorough validation before presentation.

### HR Analytics – Excel | SQL | Power BI | Tableau

- Conducted trend analysis using Excel and SQL to derive actionable insights.
- Implemented data driven retention strategies, reducing employee turnover by 15%.
- Designed interactive dashboards in Power BI & Tableau for real-time workforce analytics.

## SKILLS

---

- Tools** : SQL, Power BI, Tableau, MS Office, Jira
- Soft Skills** : Communication, Time Management, Problem Solving, Multitasking
- Languages** : Python, sql

KEY FEATURES

- 
- Advanced Excel: VLOOKUP, Pivot Tables, Conditional Formatting, Macros, VBA
  - KPI Tracking and Operational Metrics Monitoring
  - Data Table Relationships Mapping, Data Gap Identification
  - Dashboarding & Reporting Automation (Power BI, Excel)
  - Data Integration from Multiple Sources (SQL, Power BI)

EDUCATION

| Secondary School<br>Madhya Pradesh Board                                                                                            | 2016 - 2017 |

CERTIFICATION

- 
- Power BI Job Simulation- PWC (Simulated real-world dashboards for business cases)
  - Data Analysis- Microsoft & LinkedIn (Audited datasets and presented findings to virtual stakeholders)
  - Data Analytics & Visualization Job Simulation – Accenture (Excel: Pivot Tables, Dashboards, VLOOKUP, Conditional Formatting)
  - Data Analysis- ExcelR (Covered end-to-end data lifecycle including cleaning, visualization, insight generation and Advanced Excel Training)
