Professional Summary

Aspiring Business Analyst | Data Analyst

Aspiring Business Analyst with a strong foundation in data analysis, statistical modeling, and reporting. Experienced in creating dashboards, conducting business analysis, and supporting decision-making through actionable insights. Proficient in Python, SQL, and Excel, with exposure to BRD/FRD documentation and stakeholder communication.

Skills

Python, SQL, Power BI, Excel, Machine Learning, Statistical Analysis, Data Analysis, Power BI Service, Azure ML, AWS (Basics), PySpark, Flask, EDA, Model Deployment, Critical Thinking, Problem Solving

Work Experience

Data Analyst Intern – CodSoft (Mar – Apr 2024)

- Conducted data analysis using Python, performing data preprocessing and model development.
 - Applied machine learning techniques to solve real-world problems and derive actionable insights.
 - Created visualizations with Matplotlib and Seaborn to enhance stakeholder understanding.
-

Projects

TLC Coin Price Prediction using Deep Learning & Time Series

(Major Project – MIT ADT University | April 2025)

- Conducted EDA and trend visualization using Pandas, Seaborn, and Matplotlib.
- Implemented ARIMA, Random Forest, and LSTM to forecast market behavior.
- Achieved a high model accuracy of approximately 91% with the LSTM model

Identification of AES Algorithm using Machine Learning Techniques

(Mini Project – MIT ADT University | Dec 2024)

- Built a Random Forest model to identify AES encryption from ciphertext.
- Engineered features like byte frequency distribution to enhance accuracy.
- Deployed a Flask web app for real-time algorithm prediction.

HR Analytics Dashboard using Tableau

- Designed an interactive dashboard to visualize employee engagement and turnover metrics.
 - Automated reporting processes with Tableau, reducing manual effort and enhancing the accuracy of HR insights.
 - Delivered actionable insights by highlighting patterns in employee attrition and satisfaction, helping improve organizational culture and productivity.
-

Education

MIT ADT University, Pune – MSc in Applied Statistics (Data Science) | Jul 2023 – Jun 2025 | GPA: 7.21

Savitribai Phule Pune University – BSc in Computer Science | Jul 2020 – Apr 2023 | GPA: 8.9

Certifications & Achievements

- NPTEL Certification in Data Analytics with Python
- Data Analyst Certificate – ExcelR
- Accelerator X: AI & Data Analytics Masterclass
- Participant – Smart India Hackathon 2024 (Internal Round)
