EDUCATION

JECRC UNIVERSITY

2021 - 2025

Bachelor of Technology (Computer Science and Engineering)

SKILLS

- Programming Languages: Python.
- Frameworks/Libraries: NumPy, Pandas, Matplotlib.
- Databases: MySQL.
- IDEs & Packages: MySQL Workbench, Jupyter.
- Data Analytics & Visualization Tools: Microsoft Excel, Microsoft Power BI, Tableau.

CERTIFICATES & ACHIEVEMENTS

- Python Certification Course by Programming Hub.
- SQL Certification Course by Programming Hub.
- Google Cloud career readiness: Associate Cloud Engineer track by Google Cloud.
- PwC Switzerland Power BI Job Simulation on Forage - May 2024.
- Deloitte Australia Data Analytics Job Simulation on Forage - June 2025.

PROFILE

A detail-oriented and results-driven professional seeking a challenging role as a Data Analyst, where I can leverage my analytical skills, proficiency in data cleaning, data visualization, and data interpretation to drive strategic decision-making and contribute to organizational growth.

WORK EXPERIENCE

Wayspire Ed- Tech Pvt. Ltd. - Business Analyst

Feb 2025 - June 2025

- Built an interactive Power BI dashboard to analyze student data by program, gender, attendance, certification, and fee status.
- Cleaned and structured data using Excel formulas and Python (Pandas, Matplotlib) for generation, transformation, and validation.

Zidio Development - Data Science and Analytics Intern

Aug 2024 - Oct 2024

Speech & Digit Recognition Projects:

- Conducted data cleaning, visualization, and analysis on speech and digit recognition datasets.
- Improved data quality and extracted key insights that supported the enhancement of recognition model accuracy and algorithm refinement.

Celebal Technologies - Power Bi Developer Intern

June 2024 - Aug 2024

- Created interactive Power BI dashboards, transforming complex data into insights with efficient data models, ETL, and DAX calculations.
- Automated reporting processes, reducing manual work and improving data consistency.

PROJECTS

HR Analytics Dashboard

- Created a dashboard using Power Bi to improve employee performance & boost employee retention (reduce attrition).
- Visualized the causes of attrition using interactive charts.

Ola Ride Analytics Dashboard

- Designed an interactive Power BI dashboard to analyze ride trends, revenue, and customer behavior.
- Used DAX & SQL for dynamic insights and visualized ride distribution, pricing trends, and peak hours.
