Muzaffarnagar, Uttar Pradesh

SUMMARY

Computer Science undergraduate with experience in full-stack Java development, machine learning, and data analysis. Passionate about building scalable applications and leveraging data for smart decision-making. Adept at Spring Boot, React, and AI-driven project implementation.

EDUCATION

Chandigarh University <i>Bachelor of Engineering in Computer Science and Engineering</i>	Mohali, Punjab Aug. 2021 – May 2025
Saraswati Vidya Mandir Inter College <i>Intermediate Examination</i>	Muzaffarnagar, Uttar Pradesh May 2020 – May 2021

EXPERIENCE

Virtual Internship – AI Azure (4 Weeks) <i>Edunet Foundation in collaboration with Microsoft and AICTE</i>	May 2025 – June 2025 <i>Remote</i>
– Selected for a national-level virtual internship to build AI and cloud-based solutions using Microsoft Azure. – Completed intensive hands-on training on Machine Learning, Deep Learning, GenAI, and Azure Custom Vision. – Gained exposure to supervised and unsupervised learning, neural networks, and computer vision using Azure tools. – Developed and presented a capstone AI project under the mentorship of industry professionals. – Registered and completed courses on Microsoft Learn and Edunet LMS portal.	

PROJECTS

AI-Based Spam Detection System <i>Spring Boot, ReactJS, MySQL, Machine Learning</i>	Jan 2025 – Present
– Role: Full Stack Developer – Built an AI-powered spam classification system using machine learning techniques. – Integrated backend (Spring Boot), frontend (ReactJS), and MySQL for persistent storage. – Designed an interactive UI with real-time predictions and historical message logs.	
Grocery Sales Management System <i>Java, Spring Boot, MySQL, React, ML</i>	Aug 2024 – Dec 2024
– Role: Java Developer – Developed an inventory and sales tracking system for grocery stores with customer modules. – Implemented machine learning time series forecasting for demand prediction.	

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, HTML/CSS
Frameworks/Tools: Spring Boot, Hibernate, REST APIs, ReactJS, Docker, Git, JUnit
Developer Tools: VS Code, IntelliJ, Eclipse, PyCharm
Data Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Excel, SQL, Time Series Forecasting

CERTIFICATIONS

- NPTEL (12-week) – **Introduction to Internet of Things** (2023)
- SkillUp – **Introduction to Full Stack Java Development** (2023)
- Infosys Springboard – **Big Data 101** (2023)
- Coursera – **Data Science Foundations** (2023)

LEADERSHIP ACHIEVEMENTS

- Participated in “**Largest Human Image of A Waving National Flag**” (Guinness World Records)
- Volunteer in multiple **NGO initiatives**, contributing to community upliftment
- Ranked top in the prestigious **Kargil (Topper) batch** at Chandigarh University
- Selected for **NBA Projects Inspection** at **CU Projects Expo 2024**

INTEREST AND HOBBIES

Chess | Cultural Enthusiast | Electronics and Hardware | Coding and Programming
