Personal profile

A passionate and dedicated Computer Science graduate with a foundation in programming, networking, and system security. Eager to expand knowledge and expertise in cybersecurity, with a keen interest in ethical hacking, threat analysis, and risk management. Quick learner with problem-solving skills and a commitment to continuous learning in the ever-evolving field of cybersecurity. Seeking opportunities to apply technical knowledge while developing hands-on experience in cybersecurity practices.

Education

➤ **Shalom Primary and Secondary School , Panchgani**

Maharashtra SSC , (Class X)

Percentage: 76.00

➤ **Yashwantrao Chavan Institute of Science, Satara**

Maharashtra SSC , (Class XII)

Percentage: 60.72

➤ **Arvind Gavali College of Engineering , Satara**

B.TECH | Computer Science | CGPA: 7.53

Training and Internship Program

➤ **Keber Interprices , (Aug 2021 – Aug 2021)**

Acquired foundational knowledge in computer devices and hardware, including understanding of system components and assembly. Gained practical experience in the functioning and maintenance of various hardware components, enhancing technical skills and problem-solving abilities.

➤ **Nebula Technology , (Sep 2022 – Sep 2022)**

Developed a solid understanding of Java programming fundamentals, including object-oriented principles, data structures, and basic algorithms. Gained practical experience in writing, debugging, and optimizing Java code for various applications.

➤ **Oasis Infobyte , (May 2023 – June 2023)**

Gained experience in web development through an internship, including foundational skills in HTML, CSS, and JavaScript. Assisted in creating and maintaining responsive websites, debugging code, and implementing basic design elements.

➤ **ShadowFox , (Nov 2024 – Aug 2024)**

Gained hands-on experience in several key areas of cybersecurity including scanning- Detecting vulnerabilities effectively, Privilege escalation- Understanding how to elevate access rights, Exploitation-

Analyzing and utilizing vulnerabilities, Post-Exploitation- Strengthening security by exploring advanced tactics, Brute Force Attacks- Learning how to test and defend against unauthorized access.

Certifications

Forage ☐

Tata Group Cyber Security Analyst Job Simulation

CodSoft ☐

Introduction to Python Programming

Forage ☐

Clifford Chance Cyber Security Job Simulation

Qasis Infobyte ☐

Web Development and Designing

ShadowFox ☐

Introduction to Cyber Security

Languages

- English: fluent
- Hindi: fluent
- Marathi: native

Academic and Extracurricular Achievements

- Participated in the event of DBATU university AVISHKAR. ☐
- Student co-ordinator in the college event TARUNAI 2023 ☐
- Paper Presentation on Phishing URL Detection Using Machine Learning. ☐ ➤ Participated in Hackathon Project Competition. ☐

Projects

- Phishing URL Detection - A web based machine learning application that can help in finding malicious websites. ☐
- Heart Disease Prediction - A web based machine learning application that can be used to predict heart condition based on parameters like blood pressure, age, chest pain, gender, etc. ☐

- Student Information System - A web based full stack application that can be used as information system for students and teachers where teachers and students can interact and share grades announcements and mark attendance. □

Skills

Communication Skills Oral/Written | Teamwork | Active Listening | Time Management | Task Prioritization | Analytical and Quantitative Problem Solving ability | Curiosity and Motivation to learn new skills

Technical Skills

HTML | CSS | SQL | Basics of Machine Learning | Basics of SDLC | Basics of Java | Web Development | MS Office | Git and Github | Basics of Cyber Security
