SUMMARY

Analytically-minded entry-level data analyst, data scientist with a strong background in data manipulation and reporting. Proficient in SQL and Python, adept at creating dashboards and visualizations to present key findings.

EDUCATION

B.TECH, Computer Science and Engineering(Data Science)

Graduating August 2020 - July 2024

Maulana Abul Kalam Azad University of Technology

8.50 CGPA

Haldia Institute of Technology

Relevant coursework: programming Languages, Data Analytics

TECHNICAL SKILLS

Data Analysis and Statistics Skills: SQL, Numpy, Pandas, Matplotlib, Statistics, Excel

Data Scientist Skills: Seaborn, Machine Learning, Scikit Learn

Programming Languages: Python

Certifications: Python for Data Science and Machine Learning Bootcamp from Udemy, Introduction to Machine Learning From Coursera, A crash course in Data Science from Coursera.

PROFESSIONAL EXPERIENCE

Coding Samurai, Remote: Data Science Intern

January 2024 – February 2024

- Working on python libraries like Numpy, Pandas, and Matplotlib and gain some experience about them.
- Created a project (amazon sales report) where i understand the product customer behaviors.

ACADEMIC PROJECTS

DIWALI - DATA - ANALYSIS

Technologies Used - Numpy Pandas Matplotlib Seaborn Jupiter Notebook

- Performed exploratory data analysis using pandas, matplotlib and seaborn libraries.
- Improved customer experience by identifying potential customers across different states, occupation, gender, and age groups.
- Improved sales by identifying most selling product categories and products, which can help to plan inventory and hence meet the demands.

RESUME - CATEGORIZER - APPLICATION

Technologies used - Numpy Pandas Matplotlib Machine Learning Scikit-Learn Seaborn Jupiter Notebook

- Developed a machine learning-based Resume Categorizer application using Python and NLP techniques to predict resume categories such as Data Analyst, Data Science, Business Analyst, and Machine Learning.
- The project involved end-to-end model development, including data preprocessing, feature extraction, and classification, with deployment using Streamlit for real-time predictions.
- Achieved accurate predictions and demonstrated results using visualizations and evaluation metrics.

OTHER WORK EXPERIENCE

Data Science Club of HIT, : Member

January 2021 – August 2022

- As a member participated in many tech events and explore new technologies and also gain some practical knowledge.

Data Science Club of HIT, : Event Organizer Head

September 2022 – January 2024

- Organize many events like Tech quiz, Data Analyst Bootcamp programs etc. and try to build up my leadership quality better.
- In the Data Analyst Bootcamp Program i was also the python instructor of this program. The program was ongoing around 10 days.
