PROFILE

Seeking an entry-level position to begin my career in a high-level professional environment. constantly learn and use my skills in the best possible way for achieving the goals set in a competitive and healthy manner.

SKILLS

Web development

Html, Html5, CSS3, JavaScript, Bootstrap ,ReactJs .

Python

Oops, Flask, Django, NumPy, Pandas

Databases

SQL , NoSQL

Data Science

Matplotlib, Seaborn, PowerBi, Tableau, MS-Excel

Machine Learning

NLP, Tensorflow, OpenCV, LLM, RAG, MLops

EDUCATION

Shivaji University, BCA

2019 – 2022 | Kolhapur, Maharastra
77.28%

Savitribai Phule Pune University, MCA

2023 – 2025 | Pune, Maharastra
8.75 CGPA

PROFESSIONAL EXPERIENCE

Consultant in Computer System, Full Stack Intern

01/2025 – 02/2025 | Pune

Worked on day-to-day tasks using Python, React, and SQL technologies. Engaged in demo projects to strengthen practical understanding of full-stack development workflows.

COURSES

Full Stack Development, Technolearn Training Institute

2023 | Pune

This course covers essential web development skills, including HTML, CSS, JavaScript, jQuery, and the Bootstrap framework for building responsive interfaces. Additionally, I will learn Core Java, Core Python, and SQL databases to enhance my programming and data management abilities.

INTERESTS

Problem Solving

Solved 150+ real-time problems on LeetCode, dedicating time daily to enhance problem-solving skills and algorithmic proficiency.

PROJECTS

Smart Education, Web Development

02/2024 – 04/2024

Developed the frontend of an online learning platform using **HTML**, **CSS**, and **JavaScript**, creating a **responsive** and **interactive** user interface.

Leveraged JavaScript to enhance user experience with dynamic content and improve navigation throughout the site. Optimized **SQL** queries for performance and data integrity, ensuring a smooth experience for users. Collaborated on **UI/UX** enhancements to increase platform usability and accessibility.

NLP using Sentiment Analysis on Google Play Store App Review, Machine Learning

05/2025

Conducted an end-to-end on this project **missing values**, **outliers**, and inconsistent formats in key columns like price, installs, and size. Performed detailed **EDA** to identify patterns in app ratings, categories, content ratings, and user engagement. User reviews for sentiment analysis using polarity scores and text summarization using the **sumy** library. Built machine learning models including **logistic regression** and **Naive Bayes** to classify review topics .

WhatsappChatAnalyzer, Data Analysis

07/2025

Developed a *browser-based analytics tool* using **Python** and **Streamlit** to extract insights from exported WhatsApp chats. Implemented **NLP** techniques and visualizations (**Seaborn**, **Matplotlib**) to *display message statistics, user activity, emoji usage, and timeline trends*. Enabled interact data analysis through an intuitive **UI**.

DECLARATION

I hereby declare that the information and facts furnished here are true to the best of my knowledge.
