PROFILE

Detail-oriented and analytical Power BI Developer with over 3+ years of experience in Business Intelligence (BI) and data analytics. Skilled in designing interactive dashboards, implementing ETL processes, and developing insightful data models.

Skilled in designing **interactive dashboards, optimizing data models, and extracting actionable insights** to improve operational efficiency and drive business growth.

PROFESSIONAL EXPERIENCE

Data Scientist

SMARTMATRIX Digital Services Pvt. Ltd.

2022 – Present

Pune, India

- **Developed and maintained Power BI dashboards** that provided real-time business intelligence, enhancing cross-functional decision-making.
- **Optimized SQL queries** for data extraction, cleaning, and transformation, improving reporting accuracy by **15%**.
- Conducted **data trend analysis** to identify key performance indicators (KPIs), contributing to a **10% revenue growth** over two quarters.
- Built **data models and ETL pipelines** to streamline data flow and reduce manual reporting time by **30%**.
- Implemented **DAX calculations and measures** in Power BI to improve the accuracy of business insights.
- Analyzed large datasets using **Pandas, NumPy, and Matplotlib/Seaborn** to extract insights and support decision-making.

PROJECTS

Project Name: cPPOS (Central point of sales)
Client: VIL (Vodafone Idea Limited)

Software : MS Office, MS Project, MS Visio, MS Teams, PL SQL Developer, Microsoft SharePoint, Oracle 11g
Client

Common Tools & Technologies:

- Power BI Desktop & Power BI Service
- DAX, Power Query (M Language)
- SQL (for data extraction and transformations)
- Excel, Azure Synapse, Dataflows, APIs
- Gateways, RLS (Row-Level Security)
- Version Control (Git), Jira
- Python (Pandas, Scikit-learn), Jupyter Notebook
- Machine Learning (classification, regression, clustering)

Project Description:

cPOS is basically central point of sales application customer acquisition for prepaid and post-paid via application for different activation type Prepaid, post-paid, MNP, sKYC, eKYC, DKYC, Self P2P, P2P or pre to post activation or post to pre activation systems for across PAN India 23 Circles along with Corporate,

Vodafone Idea or Vi is an Indian mobile network operator with its headquarters based in Mumbai and Gandhinagar. It is an all-India integrated GSM operator offering 2G, 4G, LTE Advanced, VoLTE, 5G and VoWiFi service with subscriber base of 219.8 million, making it third largest mobile telecommunications network in India and 11th largest mobile telecommunications network in the world. 'Vodafone Idea Limited' was created on 31 August 2018 by the merger of Vodafone India and Idea Cellular. In 2020, the two separate brands Vodafone and Idea rebranded as Vi

Key Business Dashboard Data visualization & KPI prepared in recently.

1. Prepaid activation on daily /weekly. Monthly for PAN India circle wise (23 Circles across PAN India)
2. Post-paid activation/Deactivation on daily /weekly. Monthly for PAN India circle wise (23 Circles across PAN India)
3. MNP Activation /Deactivation across PAN India with diff slab.
4. P2P (Pre to Post ,Post to Pre ,Pre to Pre, Post to Post) for PAN India
5. Self P2P Activation /Deactivation
6. EKYC Activation ,7 DKYC Activation ,8.SKYC Activation ,9.Paper base activation.
- 10.IOIT, RED Family Activation.

Roles & Responsibility for Current Project:

1. Report Maintenance & Enhancements
2. User Support & Issue Resolution
3. Monitoring and Auditing
4. Data Quality Checks
5. Collaboration
6. Report and Dashboard Development
7. Data Modeling and Transformation
8. Data Source Integration
9. Power BI Service (Cloud)
10. Performance Optimization
11. Collaboration & Requirement Gathering

SKILLS

Data Visualization
