

Education

Indian Institute of Information Technology Kota	2021 – 2025
Computer Science Engineering	Bachelor of Technology
St. Anselm’s School	2009 – 2021
Class XII – 97.6%, Class X – 92.4%	

Experience

Newton School	May 2025 – Present
Data Analyst Intern	Bangalore, Karnataka
Led intake funnel analytics by building a persona-based model from 1,200+ assessments, boosting conversion rates by 25%. Automated data pipelines to clean and standardize 10K+ intake records, cutting manual effort and data errors significantly. Designed interactive Looker Studio dashboards that eliminated 40+ hours/month of manual reporting. Conducted EDA on 100+ masterclass chat logs to extract sentiment and intent, revealing 65% high enrollment interest.	

Projects

Customer Segmentation & Membership Conversion Google Data Analytics Certificate	May 2024
SQL, SQL Server, MS Excel, Power BI	
Link Analyzed 10,000+ bike trips using SQL to identify behavioral gaps, driving a 20% boost in casual-to-premium conversions. Used Power BI to reveal 25% weekend demand spike, improving bike availability during peak hours. Segmented 15,000+ riders in Excel by age and frequency, fueling campaigns that raised premium sign-ups by 15%.	

Attrition Prediction & Retention Google Advanced Data Analytics Certificate	June 2024
Python, Pandas, Exploratory Data Analysis, MS PowerPoint, Business Reporting	
Link Led attrition analysis in Python, identifying low tenure, high workload, and poor evaluations as key drivers. Applied correlation analysis and feature importance to flag high-risk employees with 2x attrition likelihood. Recommended workload capping & tenure-based promotions, projected to reduce attrition by 18% and save Rs. 12–15L annually.	

EV Payment Analytics & Revenue Recovery	March 2025
SQL, MySQL, Google Sheets, MS Excel, PowerBI	
Link Analyzed Rs. 1.2Cr+ in customer payments using 20+ SQL queries to detect patterns in delays and optimize the billing process. Conducted order-payment mapping in Google Sheets, identifying gaps that could improve payment completion rates by 12%. Linked 900+ orders with payment records using SQL joins, identifying Rs. 1.8L in dues and suggesting follow-ups to recover revenue.	

Retail Sales Analytics & Profit Optimization	April 2024
SQL, SQL Server, DAX, PowerBI	
Link Analyzed 24 months of sales data using SQL and DAX, revealing 12% YoY growth and key regional pricing trends. Developed 5 Power BI dashboards to monitor profit, revenue, and customer KPIs, enabling real-time decisions. Identified top 10 products and 3 high-margin markets, driving a 10–15% profit increase through targeted strategies.	

Skills

Languages

SQL, Python, R, DAX

Tools

Advanced Excel, Power BI, Tableau, Looker Studio, MySQL, SQL Server, BigQuery, A/B Testing

Certifications

Advanced Learning Algorithms by Stanford Online	September 2024
Coursera	
Supervised Machine Learning: Regression and Classification by Stanford Online	March 2024
Coursera	
SQL Advanced Certificate	October 2024
Hackerrank	
The Power of Statistics by Google	August 2024
