About Me

Motivated and detail-oriented MCA graduate with a solid foundation in application development, web technologies, and database management. Demonstrates strong analytical and problem-solving skills through hands-on academic and project experience. Eager to contribute to a dynamic, growth-oriented organization by delivering innovative solutions and continuously expanding technical and professional competencies in a collaborative environment.

Skills

Data Analysis: Proficient in Excel, SQL, Power BI, and Python for data analysis and reporting.

Data Visualization: Experienced in creating dashboards and visual reports using Power BI and Excel.

Programming: Knowledge of Python and SQL for data manipulation and analysis.

Tools/Technologies: Excel, Android Studio Power BI, Jupyter Notebook, SQL Workbench, VSCode.

Certifications: Data Analytics(NMD Infotech), App Development Award(IEEE, MAY 2023), AI Fundamentals (IBM Skills Build), Power Bi, Python, SQL(NMD Pvt Ltd).

Education

- Master of Computer Application (MCA)** 2023 - 2025
(MES IMCC College, Kothrud)
CGPA: 7.70/10
- Bachelors in Computer Application (BBA-CA)** 2020-2023
(MES Senior College, Kothrud)
CGPA: 8.25 / 10
- Higher Secondary Certificate (HSC)** 2018- 2020
(Symbiosis Vocational Junior College)
Percentage: 72.15%

PROJECTS DONE

Quiz Gaming App

Graduation (BBA-CA) 2020-2023

Role: Developer | Technologies: Android Studio (Java), Firebase

Developed a fully functional Quiz Application as part of an academic project. The application features a user-friendly interface built with Android Studio using Java for the frontend, and integrates Firebase for real-time database management and backend services. Implemented features such as question navigation, timer, score tracking, and user authentication to deliver an interactive and responsive user experience.

Smart Society Management

Post-Graduation (MCA) 2023-2025

Role: Developer | Technologies: Android Studio (Java), Firebase

Designed and developed a Smart Society Management Android application to streamline and digitize society-related operations. Utilized Java with Android Studio for frontend development and Firebase for backend data storage and real-time updates. Key features include member registration, notice board updates, complaint management, and event scheduling, providing an efficient communication platform between society members and management.

Fitness Web Application

Post-Graduation (MCA) 2023-2025

Role: Developer | Technologies: HTML, CSS, JavaScript, Render Database

Developed a responsive Fitness Web Application aimed at helping users track workouts, set fitness goals, and monitor progress. The frontend was built using HTML, CSS, and JavaScript to ensure an interactive and user-friendly experience. Utilized Render Database as the backend to manage user data, workout plans, and progress tracking efficiently. Focused on clean UI design, user authentication, and dynamic content rendering.

EXPERIENCE

Data Analyst Intern (NMD INFOTECH)

FEB 2025 - JULY 2025

Worked on real-world data tasks, gaining hands-on experience with data preprocessing, visualization, and reporting. Contributed to data-driven decisions using tools like Power BI, Excel, SQL, and Python-based libraries.
