

EDUCATION

Shaheed Sukhdev College of Business Studies, DU	BSc (H) Computer Science	7.34 CGPA	2025
Param Gyan Niketan, Gaya	Class XII	79.4%	2022
Gyan Bharti Residential Complex, Gaya	Class X	90.2%	2020

Technical Skills

Python, HTML, CSS, SQL, LATEX, UX/UI Design, Figma, Canva, Flutter, Data analysis, AI/ML, Advanced Excel

Internships

UX/UI Intern | Impulsive Web Pvt. Ltd Jul 2024 – Aug 2024

- Designed one-pagers & Quality Assurance-focused deck, enhancing project presentations effectively.
 - Created Play Store screens and LinkedIn templates, improving app visibility and brand engagement.
- Research Intern | SSCBS - Faculty Jun 2024 – Oct 2024

- Conducted sentiment analysis using GPT-3.5, Gemini Pro to assess LLM performance on real-world data.
- Refined model outputs and insights, contributing to improved evaluation metrics in AI research work.

Live Project Intern | BetaFin Partners Jan 2023 – Mar 2023

- Conducted market research and provided insights for a blockchain and AI startup’s growth strategy.
- Synthesised data insights into a detailed market entry strategy to guide product-market fit and expansion.

Projects

Sentiment Review: A Data Mining Approach | Data Mining - II Jul 2024 – Dec 2024

- Used Python's ensemble techniques (Random Forest, KNN, LOF, K-Means, Cosine Similarity) to perform sentiment analysis on reviews, identifying patterns, trends, and visualising insights using data mining methods.

Analysis of Airbnb Dataset | Data Mining Jan 2024 – Jun 2024

- Applied clustering and decision tree models to identify pricing patterns across global Airbnb listings.
- Segmented user data with high accuracy, enabling refined listing recommendations and strategies.

Weather Forecasting | Machine Learning Jan 2025 – Jun 2025

- Used regression and SVM algorithms on weather datasets to predict rainfall and temperature trends.
- Achieved measurable forecasting accuracy through systematic model tuning and data preprocessing.

Analysis of Billionaires' Wealth Distribution | Data Analysis & Visualisation Jul 2023 – Dec 2023

- Utilised Python's data mining techniques, including K-means clustering, normalisation, and decision trees, to identify and visualise key patterns and trends, ensuring accurate predictions and meaningful segmentation.

Aquaponics - Revolutionising Agriculture | Innovation & Entrepreneurship Jan 2023 – Jun 2023

- Highlighted aquaponics as a scalable, eco-efficient farming method addressing water and land scarcity.

POSITION OF RESPONSIBILITY

Design Lead | Google Developer Students Club – SSCBS

- Organised introductory sessions and Google Cloud Jams, boosting engagement and team collaboration.

Advisory Committee Member | Association for Computing Machinery – SSCBS

- Organised Ideagem 1.0 with 100+ participants and supported design, planning, and smooth execution.
- Created digital assets and coordinated logistics with the operations team for Smart India Hackathon–SSCBS.

Advisory Committee Member | Kriti – The Fine Arts Society – SSCBS

- Headed outreach for Alla Prima, securing 15+ sponsors and drawing 200+ attendees to SSCBS’s art fest.

Organising Committee Member | IMA – SSCBS

- Supported IMA’s marketing team in promoting speaker sessions through content creation and coordination.

EXTRA-CURRICULARS

- Awarded 1st Prize in Academics and 2nd Prize in Hindi Essay Writing at Gyan Bharti Residential Complex.
- Proficient in solving Rubik’s Cube within 2 minutes; skilled in Mandala art, acrylic, and watercolours.
