PROJECTS

Tableau : Suicide Trends in India

- Overview: Created a Tableau dashboard to evaluate suicide patterns in India, focusing on gender, age groups, and reasons.
- Insights: Marriage difficulties and Education were identified as the primary factors, with greater rates among females.

Data Mining Using Weka

- Using Weka tool I have Analyze Suicide Trends in India state wise.
- I have used various algorithms and analyse why this data reveals the numerous elements that have influenced suicide rates in various regions of India.

(Power-BI)OTT Dashboard

- Using Power BI tool I have created Dashboard of multiple OTT platforms
- I have created Netflix, Amazon, Disney dashboard and compare multiple attributes.
- In model view I have shown the Cardinalities of each Table.
