PROFESSIONAL SUMMARY

Detail-oriented and analytical Data Analyst with a strong foundation in statistical modeling, data visualization, and business intelligence. Skilled in Python, SQL, Power BI, and Excel with a proven track record of deriving actionable insights from large and complex datasets. Experienced in developing interactive dashboards, predictive models, and market research reports to support strategic business decisions. Committed to translating complex datasets into actionable business insights through compelling data storytelling.

STRENGTHS AND EXPERTISE

- **Data Analytics:** Python (Pandas, NumPy, Matplotlib, Seaborn), R, SQL, Excel
 - **Data Visualization:** Power BI, Tableau, Looker Studio
 - **Machine Learning:** Regression, Decision Trees, Random Forest, Deep Learning (basics)
 - **Data Tools:** Jupyter Notebooks, Google Sheets, Git, VS Code
 - **Soft Skills:** Analytical Thinking, Communication, Problem Solving, Collaboration
-

PROFESSIONAL EXPERIENCE

RHV, PUNE

BUSINESS EXECUTIVE INTERN

SEPT 2024 – DEC 2024

- Developed Power BI dashboards covering client activity, campaign insights, and sales KPIs across 5 departments.
- Assisted in cleaning and transforming datasets, improving data processing speed by 25% for weekly executive reports.
- Conducted over 100 data entry checks for accuracy during research initiatives.
- Built CRM-based visualizations that led to a 10% improvement in client retention tracking.

NEXUS INFO – REMOTE

DATA ANALYST INTERN

DEC 2023 – MAR 2024

- Analyzed 500+ survey responses, identifying 3 major customer trends that guided a targeted marketing campaign.
- Created a predictive sales model (97% accuracy) using Python and regression techniques, aiding inventory planning.
- Designed Excel and Power BI dashboards that improved team visibility on KPIs and influenced data-driven decisions.
- Delivered weekly insights reports that improved cross-functional planning and cut manual data processing time by 40%.

SAI ENGINEERS, PUNE

PRODUCT ANALYST

APR 2023 – NOV 2023

- Tracked and analyzed 10+ KPIs monthly to identify performance bottlenecks, improving team efficiency by 12%.
 - Designed and automated Excel dashboards to monitor sales trends, increasing reporting speed by 30%.
 - Conducted competitor pricing research that supported strategic financial decisions, contributing to a 15% boost in win rate on client proposals.
 - Collaborated with operations and finance to build a unified reporting system, reducing data errors by 20%.
-

CERTIFICATIONS

- **Data Analytics and Visualization Job Simulation** – Accenture (Forage), Dec 2023
 - **Data Visualization with Power BI** – Great Learning
 - **Machine Learning with Python** – LinkedIn Learning
 - **Deep Learning Foundations** – LinkedIn Learning
 - **Python for Data Science** – NPTEL
-

PROJECTS

STUDENT PERFORMANCE PREDICTION MODEL

Suryadatta Group of Institutes | Dec 2023 – Jun 2024

- Built a supervised ML model (Logistic Regression, Decision Trees, Random Forest) to predict academic success based on historical data.
 - Processed and cleaned over 1,000+ student records using Pandas, achieving 97% accuracy on test data.
 - Evaluated model performance using ROC curves and k-fold cross-validation to ensure robustness.
 - Developed an interactive Power BI dashboard to visualize academic risk factors and assist educators in planning interventions.
 - Enabled data-driven decision-making for student success initiatives by school administrators.
-

TRAINING / WORKSHOPS

- Hands-on Training Program in Tableau Software: T.C.College, Baramati
-

EDUCATION

- **Master of Science in Data Science**

Suryadatta College of Management Information and Research Technology, Pune

Oct 2022 – Jun 2024

- **Bachelor of Science in Statistics**

Tuljaram Chaturchand College, Baramati

Jan 2020 – Jan 2022

INTERESTS

- **Data Visualization:** Exploring storytelling with Power BI & Tableau
 - **Technology & AI:** Staying updated on emerging ML and AI applications
 - **Business Strategy:** Analyzing market trends and data-driven decision-making
-
