TECHNICAL SKILLS

- Business Analysis Tools: Requirement Gathering, Microsoft Visio, Wireframing, SDLC, BRD, FRD, Use Case, Process Mining, Process Mapping, Power BI, SQL, Python, Excel.
- Project & Agile Management: Jira, Confluence, Stakeholder Management, Scrum, Kanban, Agile Methodology.
- Data & Analytics: Data Analysis, ETL, Forecasting, Predictive Modeling, KPI tracking, Data Visualization, Statistical Modeling, Analytical Skills, Interpretation of Data.
- Interpersonal Skills: Strong Written & Verbal Communication, Collaboration, Problem Solving, Decision Making.
- Generative AI: Prompt Engineering, LLM, Evaluating and Utilizing LLM.
- RPA Tools: UiPath Orchestrator, Workflow automation, Data scraping, UI automation, Process design, Exception handling.

PROFESSIONAL EXPERIENCE

-Data Analyst

Pune

Paysquare

Sept 2024 – Present

Authored and maintained comprehensive process documentation and Standard Operating Procedures (SOPs), improving cross-functional clarity and ensuring seamless knowledge transfer during system migrations.

- Led and coordinated User Acceptance Testing (UAT) efforts in collaboration with stakeholders, validating key business workflows and minimizing post-deployment disruptions.
- Served as a core contributor to the implementation of the Leave Management System (LMS).
- Gathered and analyzed user requirements and feedback to inform system enhancements, directly contributing to higher adoption rates and improved user satisfaction.

-Data Science Intern

Mumbai

Aditya Birla Chemicals

Apr 2024 – Jul 2024

Conducted data-driven analysis using Minitab and Excel to identify key process parameters, leading to improved production efficiency and reduced defect rates.

- Applied Six Sigma methodologies to streamline operations and uphold quality standards across critical workflows.
- Generated actionable insights from operational data to support strategic decision-making and drive sustainable process improvements.

-Data Science Intern

Pune

Parenthesis Systems

May 2022 – Jul 2022

Collaborated with the team to develop a comprehensive understanding of the four factors of production (Man, Machine, Materials, Method) and how deviations in each area affect overall performance.

- Engaged in continuous learning and skill development, gaining insights into decision-making processes in the manufacturing industry and the role of AI in driving operational excellence.

EDUCATION

Symbiosis Skills and Professional University

Pune

Masters in Data Science

2021-2023

Nowrosjee Wadia College

Pune

PROJECT

Search Engine Optimization (SEO) Analytics Project:

Led a data-driven SEO analytics initiative using Python, NLP, and visualization tools to optimize content strategy, resulting in a 20–30% increase in organic traffic and improved domain authority.

Customer Acquisition Cost Analysis:

Leveraged Excel and SQL to calculate acquisition costs, improving resource allocation efficiency by 15% .

Electric Vehicles Market Size Analysis using Python:

Conducted quantitative analysis using Python and Excel to provide business insights into global and regional EV market trends.

Data Analysis using Excel:

Annual Sales Report Conducted in-depth analysis of Vrinda Store's sales data for 2022 to provide insights for business growth in 2023.- Presented actionable findings through effective data visualization techniques.

CERTIFICATION & PUBLICATION

•**Publication:** A Smote-Based Churn Prediction System using Machine Learning Techniques Published a Research paper at IEEE Journal in 2023

Objective: To leverage machine learning techniques in predicting customer churn within the telecommunications industry.

- Certification in Data Science & Decision Science IIT Delhi
- Crash Course in Python by Coursera
- Power BI for Beginners by PWC
- Introduction to Cloud Computing by IBM
- Introduction to Project Management by Google
