

ANURAG SINGH

Pune, India | 9981418565 | [Gmail](#) | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Certified Data Analyst skilled in **SQL, Excel, Power BI, Tableau, and Python**. Experienced in building automated dashboards and optimizing data pipelines to enable leadership in making data-driven decisions. Proficient in extracting insights from both structured and unstructured data, leading to a 30% improvement in reporting efficiency. Well-versed in Agile environments and cross-functional team collaboration.

EDUCATION

Sagar Institute of Research And Technology 2020 – 2024
Bachelor of Technology in Computer Science & Engineering

TECHNICAL SKILLS

- | | | | |
|--------------------|------------------|-------------|----------------------|
| • Power BI Desktop | • Advanced Excel | • Tableau | • Data Modelling |
| • DAX | • SQL | • MS Office | • Data Visualization |
| • NumPy, Pandas | • MongoDB | • Python | • Data Cleaning |

WORK EXPERIENCE

Software Developer Intern | Desi QnA (Remote) | Pune, Maharashtra 7/2024 – 01/2025

- Optimized platform performance across devices, improving user engagement by **25%** through data-driven redesign decisions.
- Refactored React components using Hooks, resulting in **30% faster load times**.
- Collaborated with the backend team to fetch and visualize data from RESTful APIs, contributing to a **30% improvement in data loading efficiency** across modules.

PROJECTS

HR Analytics Dashboard | Power BI [Link](#)

- Built an interactive **HR dashboard in Power BI** to analyze attrition trends of **1,470 employees**, improving visibility for HR decisions.
- Visualized key metrics including **average age (36 years)**, **salary (₹65K)**, and **attrition count (237 employees)** split by gender.
- Used slicers and charts to compare attrition across **5+ education fields**, **9 job roles**, **3 business travel categories**, and **multiple age groups**, highlighting high-risk segments.

Sales-Dashboard | MS Excel (Pivot Tables, Charts, Conditional Formatting, Functions) | [Link](#)

- Cleaned and prepared a dataset of **10,000+ sales records** using Excel functions like VLOOKUP, IF, and Pivot Tables for accurate analysis.
- Designed a dashboard to track **sales trends, category-wise performance, and profit margins** across multiple regions.
- Used various chart types (funnel, line, pie, bar, map) to visualize **monthly sales, top 5 customers by profit**, and **state-wise sales distribution**.

ACHIEVEMENTS

- HackerRank (SQL Gold Badge)**: Achieved top rank by solving complex SQL challenges, demonstrating advanced query optimization and real-time data extraction skills.
- MP Government Scholarship (₹25,000)**: Awarded for academic distinction, securing a top percentile rank in Higher Secondary Examinations conducted by MPBSE.
- Rising Star Recognition (Gebbs Simulation Program)**: Recognized for **outstanding performance** and timely completion of tasks in an online job simulation program.

CERTIFICATIONS

- Google Analytics Certification** – Google Digital Academy
- Data Visualization: Empowering Business with Insights** – Tata Group via Forage
- Data Analytics Job Simulation** – Deloitte Australia via Forage
- GenAI Powered Data Analytics (Virtual Internship)** – Tata Group via Forage
- Data Science & Analytics** – HP LIFE
- Career Essentials in Data Analysis** – Microsoft & LinkedIn
- Data Analytics Essentials** – Cisco Networking Academy
- Machine Learning Fundamentals** – Alteryx
