## Objective

Dedicated IT graduate with strong analytical skills, proficient in visualization, machine learning, and python. Eager to contribute to innovative teams and apply academic knowledge to business problems.

## Education:

**Kirti M. Doongursee College of Arts, Science and Commerce, Mumbai, India.**

Master of Science in Data Science: 2024 – 2026  
(Sem I, SGPI – 9.09)

**St Gonsalo Garcia College of Arts and Commerce, Mumbai, India.**

Bachelor of Science in Information Technology:  
2023 (CGPI – 7.87)

## Technical Skills:

- **Programming: Python** – Proficient in writing clean, efficient code for data analysis, automation, and scripting; experienced with libraries like Pandas, NumPy, Matplotlib, and Scikit-learn.
- **Databases: SQL** – Skilled in writing complex queries, joins, subqueries, and CTEs; experienced in data extraction, transformation, and analysis using MySQL, PostgreSQL, and SQL Server.
- **Data Visualization:** Proficient in creating interactive dashboards and insightful visual reports using Tableau, Power BI, and Matplotlib; skilled in presenting data-driven stories for business decision-making.
- **MS Excel:** Experienced in advanced Excel functions including VLOOKUP, INDEX-MATCH, PivotTables, data cleaning, and dashboard creation.
- **Machine Learning:** Skilled in building and evaluating ML models using Scikit-learn and TensorFlow, with experience in preprocessing, feature engineering, and model tuning.

## Work Experience:

Found Ever – Mumbai, Maharashtra

Customer Service (Back-Office Support) | July 14, 2023 – March 11, 2025

- Delivered high-quality customer support by managing backend operations and maintaining accurate records.
- Streamlined data entry and workflow processes, improving efficiency and reducing processing errors.
- Utilized data analysis to troubleshoot issues and support resolution of customer inquiries effectively.
- Collaborated with cross-functional teams to enhance service delivery and operational performance.

## Projects & Certifications:

- **Tata Consultancy Services – Data Visualization Job Simulation (Forage) April 2025**

Designed data visualizations and presentation-ready insights to support business decisions; collaborated on mock client engagement, including preparing leadership-focused questions.

- **Lloyds Banking Group – Data Science Job Simulation (Forage) June 2025**

Built and optimized a churn prediction model using Random Forest in Python, applying full data preprocessing and model evaluation techniques to deliver business insights.

- **British Airways – Data Science Job Simulation (Forage) April 2025**

Scraped and analyzed customer review data to build a predictive model identifying key factors influencing customer buying behavior.

## Achievement:

Research Publication – “Analyzing the Impact of Irregular Sleep Patterns on Academic Performance Using Machine Learning”, published in The Voice of Creative Research, Vol. 7 No. 2, April 2025

Presented at the National Conference on Management and Technology (NCMAT-2025) under the theme Amrit Kaal – Shaping the Future: Trends and Insights for Science, Technology, Humanities, Commerce, and Management.
