PROFILE SUMMARY

Analytical and detail-oriented B.Tech student with a strong foundation in data analysis, business strategy, and problem-solving. Proficient in Excel, SQL, and Power BI, with hands-on experience in academic and personal projects involving sales analysis, customer behavior, and dashboard reporting. Skilled in gathering requirements, interpreting data trends, and presenting actionable insights. A quick learner with a keen interest in transforming data into meaningful business decisions. Seeking an entry-level Business Analyst role to contribute to data-driven decision-making and business growth.

EDUCATION

Dehradun University B.Tech in Computer Science Cloud computing and blockchain	Dehradun, Uttarakhand <i>Graduation, May 2025</i>
---	--

Holy Mission Sr. Secondary School Class 12 th (CBSE)	Patna, 2018-2020
--	------------------

Ishan Internation Girls School Class 10 th (CBSE)	Patna, 2017-2018
---	------------------

EXPERIENCE

* Completed Google Business Analyst Certificate, which involved hands-on projects in stakeholder communication, data cleaning, and reporting.

* Built interactive dashboards using Tableau and performed customer segmentation using SQL during a self-initiated project based on Kaggle datasets.

* Analyzed customer purchase data in an academic project using Excel and Power BI to identify sales trends and recommend improvements to marketing strategy.

** Volunteered as an operations analyst for a university tech fest, where I gathered feedback from stakeholders, analyzed event performance, and presented insights for future planning."*

PROJECTS
