

Aryabrata Dev

Business Analyst

7008788644 aryabrata.dev18@gmail.com Hyderabad, India
[Linkedin](#) [Github](#) [Medium](#)

Profile

Highly skilled and results-driven Data Analyst with proficiency in data analysis tools such as Python and SQL, and expertise in statistical analysis and data visualization. Strong problem-solving skills combined with the ability to effectively communicate complex data insights to non-technical stakeholders.

Skills

- **Programming Languages:** Python, MYSQL
- **Data Analysis and Visualization:** Data Collection and Cleaning, Data Modeling, exploratory data analysis
- **Technical Skills:** Power BI, Excel
- **Soft Skills:** Analytical thinking, problem-solving

Professional Experience

Data Analyst Intern ([Innomatics Research Labs](#)) 01/2024 - 04/2024

- Conducted comprehensive exploratory data analysis (EDA) on the BigMart sales dataset to uncover key insights and trends.
- Implemented data preprocessing techniques such as imputing 25% missing values, outlier detection, and feature scaling to ensure data quality and consistency.
- Collaboration and Learning: Work closely with the team, actively participate in project discussions, and contribute to the continuous learning and improvement of data science practices within the organization.

Data Analyst Intern ([Technocolabs Softwares](#))

- Assisted in gathering and analyzing business requirements, facilitating communication between technical and non-technical teams.
- Transformed the raw data pipeline by eliminating over 5,000 duplicate records, imputing 10% missing values, and standardizing formats, resulting in a 20% decrease in processing time and a 15% increase in data accuracy.
- Visualization: Utilized statistical techniques and data analysis tools to identify meaningful patterns, trends, and correlations within the data.

Projects

Reporting Sales - PowerBI

- Created a grid view dashboard displaying a table of all car details in the PowerBI report.
- Compiled an executive report delivering key business insights, a detailed sales overview, average price analysis, and car sold metrics; provided actionable data that influenced strategic decision-making and increased sales by 25% as compared to the previous year.

Aws Sagemaker Flight Prices Prediction ([Github](#))

- Cleaned and preprocessed datasets using Numpy and Pandas, ensuring 99% data accuracy; conducted exploratory data analysis with advanced statistical measures and visualizations, leading to actionable insights for strategic decision-making.
- Feature engineering and data preprocessing, enhanced model accuracy by 15% and reduced processing time by 20%, streamlining machine learning workflows.
- Model training and deployment on AWS SageMaker, utilizing S3 storage and EC2 instances.

Real Estate Data Science Application

- Developed a **Client-based real estate project** entailing web scraping property listings, data cleansing, dataset integration, advanced feature engineering, exploratory data analysis (EDA), and proficiently utilized outlier detection techniques and missing value imputation methods.
- Applied advanced feature selection techniques and compared multiple regression models, predicting property prices with 90% accuracy developed an intuitive web application using Streamlit, designed and deployed a user-friendly web application on AWS using Streamlit.

Education

Post Graduate Program in Data Science *Innomatics Research Labs* **Hyderabad, India** 2023 - 2024

Bachelor Of Science In Mathematics And Statistics *College of Basic Science and Humanities* **Odisha, India** 2022

Research project: Conducted a thesis on COMPACT TOPOLOGICAL SPACES

Online Courses & Certifications

- Certified in Innomatics Research Labs on Exploratory Data Analysis Using Python Libraries [Link](#)
- Certificate of participation in Data Analyst internship from Technocolabs Softwares [Link](#)
- Certification on successful completion in Data Science [Link](#)

Achievements

- Letter of recommendation: Completed internship in Data Analyst with Technocolabs Softwares, from Jul 1, 2023 to Aug 15, 2023
Aryabrata Dev is highly deserving and has showcased the willingness to work hard both, efficiently and independently [Link](#)
