Skills

Languages: Python, R-Programming(Basic), C/C++, SQL
Tools: MS-Excel, Power BI, Tableau, VS Code, Jupyter Notebook, GitHub, MySQL Workbench, Big Query
Frameworks: OpenAI, Pandas, Numpy, OpenCV, Matplotlib, OCR, OOPs, Flask, ETL
Additional Skills: Data Analysis, Data Cleaning, Data Visualization, Data Driven Decision Making, Data Warehousing
Soft Skills: Communication Skills, Presentation Skills, Teamwork, Leadership, Time Management, Problem Solving

Education

Medicaps University - Bachelor of Technology, Computer Science CGPA - 8.7	2021 - 2025 Indore
Choithram School - Class 12th board- CBSE, Science Percentage - 86%	2020 - 2021 Indore
Indus World School - Class 10th board- CBSE Percentage - 84%	2018 - 2019 Indore

Projects

- Automated Resume Analyzer** | *Python, SQL, OpenAI*
- Developed an AI-powered Resume Analyzer that automates the hiring process by extracting key skills and qualifications using Python and Google Gemini API.
 - Enhanced recruitment efficiency by enabling automated resume screening and skill-based candidate matching, reducing manual effort for recruiters.
- Data Analysis Portfolio Project** | *Data Analysis, SQL, Excel, BI*
- Designed a business intelligence solution by integrating and analyzing MySQL database insights using SQL queries, cleaning and formatting data in Excel for effective storytelling.
 - Utilized advanced Excel techniques like pivot tables, data visualization, and conditional formatting to create an interactive dashboard showcasing KPIs such as revenue, order trends, and category performance.
- License Plate Recognition System** | *Python, OpenCV, OCR*
- Developed a Python-based License Plate Recognition System using OpenCV and OCR to capture, detect, and decode license plate information from images and video feeds.
 - Automated vehicle tracking and identification by efficiently extracting license plate data for monitoring purposes.

Experience

- Tech Mahindra** Jan, 2025 - Apr, 2025
- Developed an AI-Powered Employee Tracking and Productivity Monitoring System to enhance operational efficiency by automating task tracking and performance analysis.
 - Designed and deployed an AI assistant to streamline internal communication and improve user interaction within the organization.
- Computronics Systems Pvt. Ltd.** Jun, 2024 - Aug, 2024
- Developed an Automated Resume Analyzer using Python and Machine Learning algorithms to optimize skill and experience matching for candidate evaluation.
 - Implemented data analysis techniques to automate resume screening and assess candidate test results, ensuring a data-driven, efficient hiring process.
- FabHr Solutions** Jun, 2023 - Aug, 2023
- Implemented Java-based solutions to streamline internal processes and improve efficiency. Utilized Java frameworks and tools to create and optimize web applications.
 - Learned and applied object-oriented programming principles to real-world Java projects.

Key Certifications

- Google Data Analytics Professional Certificate
- JP Morgan Excel Skills Job Simulation Certificate
- IBM SQL and Relational Databases Certificate
