Education

Indian Institute of Information Technology, Jabalpur B.Tech in Computer Science & Engineering	2021-2025 CGPA : 7.6
St. John's Sr. Sec. School, Firozabad Senior Secondary School Examination	2020 95.8 %
St. John's Sr. Sec. School, Firozabad Secondary School Examination	2018 93.8 %

Experience

Zion Technologies Solutions <i>Business Analyst Intern</i> - Python, SQL, Power BI, MS-Excel	<i>Remote (Hyderabad)</i> Jan 2025 – Apr 2025
○ Analyzed business operations using Python, SQL, and Excel to uncover actionable insights. ○ Developed interactive dashboards and automated reports in Power BI to guide strategic decisions. ○ Collaborated with stakeholders to gather data requirements and translate them into analytical solutions. ○ Documented KPIs, processes, and business logic to support ongoing improvements.	
Fusion IIITDMJ <i>Project Management</i> - Python, SQL, HTML, CSS, MS-Excel, MS-Word, GitHub	<i>Jabalpur, M.P.</i> Jan 2024 – Jun 2024
○ Led end-to-end SDLC processes including requirement gathering, functional specification, and deployment. ○ Conducted stakeholder interviews and discussions to gather both functional and non-functional requirements. ○ Designed use cases to analyze information needs and support system architecture planning. ○ Maintained comprehensive documentation, including SRS, BRD, and system workflows.	

Projects

Book Binary - Python, Flask, HTML, CSS, GitHub	Live Github
○ Designed and implemented a personalized book recommender system using Collaborative Filtering, enhancing user engagement with tailored suggestions. ○ Integrated data storage and dynamic visualizations to enable efficient exploration of books.	
Data Job Market Analytics - Excel, Python, Pandas, Seaborn, Matplotlib	Github
○ Cleaned and analyzed real-world job market data consisting of over 50,000+ records to identify trends in skill demand and salaries. ○ Visualized insights highlighting the most in-demand skills and their impact on salaries.	
Ride and Operations Analytics - Excel, ETL, Power BI	Github
○ Analyzed 100,000+ ride-booking records and built an interactive Power BI dashboard to track revenue trends, ride distribution, customer ratings, and cancellations. ○ Identified operational inefficiencies and customer behavior patterns through intuitive visualizations to support strategic business decisions.
