PROFESSIONAL SUMMARY

Motivated engineering graduate specializing in DevOps. Seeking a full-time role to apply hands-on experience in cloud-native application development, containerization, and scalable system design, contributing to innovative and reliable software solutions.

TECHNICAL SKILLS

Languages: Java, JS, Python, ABAP, C++, SQL, C
Web/UI: HTML, CSS, JS, SAP UI5
Cloud/DevOps: Kubernetes, Docker, Jenkins, ArgoCD, Gardener, Git
Backend/API: REST, OOP, Agile, HANA, Java SpringBoot
Tools/DBs: MySQL, MongoDB, Postman, SAP S/4HANA
ML/AI: Pandas, Scikit-Learn, Numpy, Seaborn

CERTIFICATIONS

- Python, Problem Solving, SQL, JavaScript, Java, C – Hackerrank
- Docker Essentials, Kubernetes for Developers Coursera
- DSA with Java - ApnaCollege

ACHIEVEMENTS

- **Patent:** : Developed and published a novel CBIR system using color histograms (Patent No: 565143, Apr 2025)
- **Hackathon:** OCR app for visually impaired; Top 5 finalist(2019)

WORK EXPERIENCE

Java Full Stack Developer Intern

SAP Labs

Aug 2024 – Jun 2025

- Developed and maintained **Java-based microservices** using **Spring Boot**, **REST APIs**, and integrated them with frontend applications, enhancing internal product features.
- Built responsive **web interfaces** using **JavaScript**, **HTML5**, **CSS3**, and worked on seamless API consumption to deliver an end-to-end user experience.
- Designed and implemented **reusable UI components** and **service templates**, reducing development effort and improving consistency across modules.
- Implemented secure authentication and authorization mechanisms, improving application security and compliance with enterprise standards.
- Worked on **database design** and optimized queries for **HANA DB**, ensuring high performance and reliability.
- Automated build and deployment processes with **Jenkins**, **Docker**, **Kubernetes**, and integrated them into the development lifecycle for faster delivery.
- Collaborated with **cross-functional teams** in an **Agile** environment, actively participating in code reviews, sprint planning, and product demos.
- Engaged in troubleshooting, root-cause analysis, and production support to maintain high availability and stability of deployed services.
- Explored **AI-driven solutions** for automating repetitive monitoring tasks, contributing to innovation within the team.
- Participated in client meetings and solution discussions with S/4HANA teams, gaining insights into enterprise integration and deployment strategies.

PROJECTS

AI/ML Trust Detection (*Technologies: Python, Scikit-Learn, TF-IDF, Random Forest, LIME*)

- Developed a model to detect trustworthiness and data leakage in AI datasets using **Random Forest** and **TF-IDF feature extraction**.
- Used **LIME** for model interpretability, achieving an accuracy of 85% on real-world data.
- Explored foundational NLP techniques and interpretability tools like LIME; familiar with LLM principles such as vectorization, embeddings, and attention mechanisms.
- Used LIME for model interpretability; gained working understanding of NLP pipelines and foundational LLM concepts like tokenization and embedding.
- Implemented Random Forest with TF-IDF vectorization on 20 newsgroups dataset; optimized model parameters for performance.

Student Dashboard Web App (*Technologies: Java, Spring Boot, REST APIs, JavaScript, HTML/CSS, Chart.js*)

- Designed and implemented a full-stack dashboard for student performance analytics.
- Built backend services using **Spring Boot REST APIs** and integrated them with a dynamic front-end using **JavaScript** and **Chart.js**.

- Enabled real-time data visualization and improved user experience with responsive **UI** components.
- Secured API endpoints using **JWT-based authentication** and implemented role-based access control for students and administrators.
- Utilized **MySQL** for persistent storage and designed normalized relational schemas for storing student scores, attendance, and subjects.

EDUCATION

M.Tech in Artificial Intelligence and Machine Learning

Aug 2023 – Present CGPA: 9.00

SRM University, Amaravati

B.Tech in Computer Science and Technology

Jul 2019 – Jul 2023 CGPA: 8.96

SRM University, Amaravati
