SUMMARY

Aspiring Data Analyst with a strong foundation in data analysis, visualization, and interpretation. Proficient in Python, SQL, and data visualization tools like Tableau/Power BI. Skilled in statistical analysis, data modeling, and data mining. Eager to leverage analytical skills, attention to detail, and a collaborative mindset to drive data-driven decision-making and support business growth.

EDUCATION

B.Tech in Computer Science (AI) , Gates Institute of Technology, Gooty <i>Sep 2022 – May 2025</i>	GPA: 8.60
Diploma in Electrical & Electronics , Govt. Polytechnic College, Narpala <i>Sep 2019 – May 2022</i>	GPA: 7.0

PROJECTS

Name: Loan Approval Prediction — [Demo]

- Built a logistic regression model to predict loan approvals based on financial and credit data.
- Handled missing values and label encoding to prepare clean input features.
- Deployed the model with a responsive Streamlit interface for real-time predictions.

Name: House Price Prediction — [Demo]

- Developed a regression model using area, location, and rooms to estimate housing prices.
- Performed cleaning, normalization, and one-hot encoding of raw housing data.
- Deployed using Streamlit for easy interactive predictions.

Name: Diabetes Prediction System — [Demo]

- Implemented logistic regression to classify the risk of diabetes with precision 74%.
- Applied imputation, scaling and evaluation with confusion matrix.
- Streamlit-based UI allowed user-friendly health risk checks.

Technical Skills

- **Languages & Libraries:** Python, Pandas, NumPy, Excel
- **Data Analysis:** Data visualization, Statistical analysis, Data mining
- **Data Processing:** Data cleaning, Data transformation, Data quality control
- **Tools & Databases:** SQL, Excel, Tableau/Power BI, MongoDB
- **Machine Learning:** Basic understanding of regression, classification, and clustering
- **Soft Skills:** Problem Solving, Analytical Thinking, Collaboration, Communication

ACHIEVEMENTS

- Solved over 300 problems on LeetCode and 200+ on GFG
- Completed 60% of Striver's A-Z DSA Sheet

Certifications

- SQL HackerRank: Demonstrated foundational knowledge of SQL concepts, including querying, filtering
- Python for Data Science Pro: The Complete Mastery Course, Udemy Gained comprehensive knowledge of Python programming for data science applications
