Carrer Objective

To work and learn in a pragmatic way, where I can enhance my skills for the upliftment of an organization.

Education

- | | |
|---|------------------------|
| KDK College Of Engineering at Nagpur, BTech in Computer Science & Engineering | Jan 2021 – Dec 2024 |
| • CGPA: 7.64/10 | |
| St Paul Junior College, Nagpur, HSC in Science | June 2019 – Feb 2020 |
| • Percentage: 63.85% | |
| Sanjuba High School, Nagpur, SSC | June 2017 – March 2018 |
| • Percentage: 73% | |

Internship

- | | |
|---|-----------------------|
| Java Developer , Revsol Educare Pvt.Ltd -Pune | Aug 2024 – Jan 2025 |
| <ul style="list-style-type: none">• Pursued an intensive six-month Java Developer training program at Revsol Educare Pvt.Ltd, Pune, which covered core Java, J2EE technologies , Hibernate and practical application development. The training emphasized both theoretical understanding and hands-on experience with real-world projects.• Mastered the fundamentals of Java, including object-oriented programming (OOP) principles, exception handling, and multithreading.• Learned SQL and JDBC for database connectivity and manipulation. Worked with popular databases such as MySQL. Implemented RESTful web services and APIs for seamless client-server communication.• Explored frameworks like SpringBoot and Hibernate for building scalable and maintainable enterprise applications. | |
| Advance Diploma – Data Analytics , Borgward Technology – Pune | Aug 2023 – Feb 2024 |
| <ul style="list-style-type: none">• Analyzed large datasets using Python, SQL, and Excel to extract insights and trends.• Built machine learning models for predictive analysis and business decision-making.• Automated data cleaning and processing tasks, improving efficiency by X%.• Created interactive dashboards using Power BI/Tableau for data visualization and reporting.• Collaborated with cross-functional teams to provide data-driven solutions. | |
| Network Communication & security , IT NetworkZ, Nagpur | April 2022 – Jun 2022 |
| <ul style="list-style-type: none">• Configured and maintained network infrastructure, including routers, switches, and firewalls.• Monitored network traffic to identify vulnerabilities and enhance system security.• Implemented security protocols such as firewalls, VPNs, and intrusion detection systems (IDS).• Conducted risk assessments and provided solutions to mitigate potential security threats.• Assisted in network troubleshooting, ensuring minimal downtime and optimal performance. | |

Projects

Employee Management System (Backend Project)

- Utilized Spring Boot to create a robust and scalable backend for the Employee Management System.
- Implemented object-relational mapping using Hibernate for efficient database operations and management.
- Designed and exposed RESTful APIs using Spring REST to handle CRUD operations for employee data.
- Tools Used: **Spring Boot, Hibernate, Rest Webservices, Spring MVC, MySQL**

Technical Skills

- OOPS, Core Java, Spring Boot, Java Spring MVC, Server Page, Java Data Base Connectivity, Hibernate
- HTML, CSS, Bootstrap, JavaScript
- MySQL
- Data Analysis – Excel, Power BI, Python (Pandas, NumPy), Data Visualization, Tableau

Tools

- Eclipse
- Visual Studio Code
- Anaconda – Jupyter Notebook
- MySQL Workbench
- Tableau

Certifications

C, C++

Pegasus Technologies

Data Analyst

Borgward Technology
