A highly analytical and detail-oriented Computer Science & Engineering graduate with a strong passion for business analysis and data-driven decision-making. Proficient in Power BI, Excel, Tableau, and other business intelligence tools, with a problem-solving mindset and a keen eye for insights. Strong analytical and critical thinking skills enable me to break down complex problems and develop strategic solutions. I thrive in dynamic environments, adapting quickly to new challenges while leveraging data to drive business efficiency and innovation. A proactive learner with a structured approach to problem-solving, I am eager to contribute my skills to impactful business decisions.
