Professional Summary

Entry-level Business Analyst with 1+ year of experience supporting requirements gathering, process documentation, and data-driven decision-making. Skilled in Power BI, Tableau, Excel, and basic SQL, with a strong foundation in analyzing business data, improving reporting accuracy, and collaborating with cross-functional teams. Adept at delivering actionable insights that help streamline operations and support business growth.

Core Skills

- Requirements Gathering & Documentation
- Business Process Mapping & Workflow Improvement
- Data Analysis & Visualization (Power BI, Tableau, Excel)
- KPI Tracking & Performance Reporting
- Data Validation & CRM Management
- Basic SQL Querying & Reporting
- Stakeholder Communication

Professional Experience

Business Development Executive

Olatech Solutions Pvt. Ltd., Baner | May 2025 – June 2025

- Engaging with prospective clients to present and sell IT solutions and Services.
- Handling inbound and outbound sales calls, email communications, and follow-ups.
- Maintaining records of sales leads, customer interactions, and closed deals.
- Collaborating with internal teams to ensure smooth onboarding and post-sale support.
- Meeting weekly and monthly sales targets and reporting performance to management

Business Analyst

MarketinLab, Pimpri Chinchwad | Jan 2023 – Oct 2024

Started as Business Analyst Intern (Jan 2023 – Mar 2023), transitioned to full-time Business Analyst (Apr 2023 – Oct 2024).

Assisted in gathering and documenting business requirements, ensuring alignment with stakeholder needs.

Built Power BI dashboards that reduced manual reporting time by 3–4 hours weekly.

Conducted data validation and cleanup, improving CRM data accuracy by 12%.

Documented workflows and identified areas for process improvement, enabling ~5% faster task completion.

Prepared weekly reports summarizing findings for management decision-making.

Key Projects:

Customer Segmentation & Sales Forecasting

Associate Team Member

- Collaborated on a data-driven solution using K-means and K-mode clustering to segment customers and forecast sales.
- Assisted in data analysis, algorithm implementation, and dashboard design.
- Delivered actionable insights to support informed sales and marketing decisions.

Keyword Analysis Dashboard – Tableau

Sole Contributor

- Built a Tableau dashboard to identify high-volume, low-cost keywords for paid and organic campaigns.
- Performed data cleaning, visualization, and insight generation.
- Helped improve digital ad targeting and ROI at MarketingLab.

Other Projects

Customer Insights Dashboard – Bike Purchase Behavior

- Built an Excel dashboard to analyze bike purchase patterns and segment key buyer groups.
- Identified trends such as high conversion among middle-aged, high-income professionals.
- Demonstrated effective use of Excel for turning raw data into business insights.

HR Analytics Dashboard – Employee Attrition

- Developed an interactive Excel dashboard using PivotTables and charts to visualize attrition trends.
- Highlighted key insights such as high attrition among 25–34-year-olds and single employees.

Education

MBA (Business Analytics) – D.Y. Patil Institute of MCA & Management, Akurdi | 2023–2025

B.Sc. (Science) – Modern College of Arts, Science & Commerce, Pune | 2020–2023
