Education

Medicaps University

Bachelor of Technology in Computer Science

Aug. 2021 – June 2025

Indore, MP

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Experience

Tata (Forage)

June 2023

Data Visualization Intern

Indore, MP

- As a virtual intern in data visualization, I bring a passion for transforming complex data into meaningful visuals that empower businesses to make informed decisions. Through my internship, I have developed a strong foundation in data analysis, visualization techniques, and storytelling.
- Throughout my virtual internship, I successfully completed projects where I translated complex datasets into clear and concise visual representations. I collaborated with cross-functional teams, leveraging my communication skills to understand their needs and deliver impactful visualizations that met their requirements.
- Explored ways to visualize and send a daily report of test results to team members using HTML, Javascript, and CSS.

Palo Alto

July 2024

College Inhouse Intern

Indore, MP

- Cyber Security Fundamental-: understanding of the modern cybersecurity landscape and today's cyberthreats. You'll learn about current attack methods, defense strategies, public Wi-Fi risks, and protection measures.
- Network Security Fundamental-: network security fundamentals, including connected devices, routing, area networks, and protocols.
- Cloud Security Fundamental-: the core technologies used in cloud computing, such as virtual machines and containers, development operations teams, and the CI/CD pipeline.
- Security Operations Fundamental-: the six elements of security operations, and how SOAR technology simplifies cybersecurity response and prevention.

Projects

CONNECT-IN | React Js, Firebase, Node js

January 2023

- Developed an application to facilitate interactions between college seniors and juniors, fostering healthy dialogue about future plans and academic goals .
- Provided a platform for juniors to receive guidance on placement and internship opportunities from seniors, enhancing their career preparation .
- Integrated a Frontend and Backend using Google Firebase, ensuring privacy and confidentiality for all users .

CPU Scheduling Algorithms | Html, Css, JS

November 2023

- Implemented various CPU scheduling algorithms such as Round Robin, Priority Scheduling, Shortest Job First, First Come First Serve, and Multilevel Queue Scheduling in a web-based platform .
- Developed a web interface that replicates operating system process scheduling, allowing users to visualize and interact with different scheduling techniques.
- Optimized the performance and accuracy of the algorithms to ensure realistic simulation of process scheduling in operating systems.

Technical Skills

Languages: C++, C, Java, Python, HTML/CSS, JavaScript, SQL,R,Solidity

Developer Tools: VS Code, Eclipse, PyCharm , FireBase

Technologies/Frameworks: React JS, Node Js, Express Js, Git, GitHub

Leadership / Extracurricular

- Achieved 5 stars on HackerRank in categories of C, C++ and Problem Solving (highest possible ranking).
- GDC Core Member -: Core member of developer student club of my college. This club organises many technical events and sessions for students in college.
- Shree Ram College of Commerce-: Wrote many articles on Trading and Investing mainly related to various Finance module and how to import them, use them for better understanding for business.
