EDUCATION

Government Engineering College Raipur, GEC Raipur

2024

BTech in Computer Science Engineering; CGPA: 8.65

Shakuntala Vidyalaya, Ramnagar, Bhilai

2020

CBSE (XII); Percentage: 85%

SKILLS

Languages: Python, SQL **Tools/Technologies:** Excel, Tableau, Jupiter lab **Soft Skills:** Leadership, Teamwork, Creativity

Area of Interest: Analytics, Machine Learning, Data Analysis, Data visualization, Management

Certifications: [Machine Learning](#) from Abhyuday IIT Bombay, Data Analysis with [Python](#) powered by IBM

WORK EXPERIENCE

Data Analyst Intern, Cognifyz Technologies

February 2024 - March 2024

- Processed large volumes of restaurant data by applying various **data manipulation techniques** to handle duplicates, missing values, and invalid entries, ensuring the data was accurate and ready for analysis.
- Determined solutions to **complex business problems** and generated insights to help in the growth of the company.
- Created various data visualizations, including bar charts, histograms, and pie charts, using **matplotlib** and **seaborn**, to analyze solutions and clearly illustrate trends and patterns, supporting more informed decision-making.

Exposure: Python, Jupiter notebook, Pandas, NumPy, Data Visualization Libraries

PROJECTS

Coffee Shop Sales Analysis

- Analyzed retail sales data using **Excel** to uncover actionable insights to improve shop's performance & profitability.
- Created a variety of visualizations, including **sales trends, monthly revenue, sales distribution across different store locations, best-selling products, and customer purchase patterns**, to provide comprehensive view of the business.

YouTube's Data science channels Analysis Dashboard

- Created an interactive **Tableau** dashboard to visualize trends and performance metrics for data science channels on YouTube utilizing a dataset with details such as channel names, likes, release dates, views and shares.
- Generated meaningful insights to understand the landscape of data science content on YouTube & optimize strategy.

Global Online Orders Dashboard

- Developed an interactive dashboard using **Tableau** to visualize and analyze the dataset of global online orders.
- Integrated multiple data sheets using different types of **joins** on columns for **data preparation** and created advanced visuals such as **boxplots, tree maps, bubble charts** to identify key patterns and insights from the data.

SQL-Based Movie Data Analysis

- Merged different data tables of movie reviews, ratings, financial records and artist information using **SQL** queries.
- Developed and executed **complex SQL queries** to address intricate scenarios, generating valuable insights such as top-rated movies, sentiment analysis of reviews, production cost details, movie durations, and IMDb ratings, facilitating a deeper understanding of film industry trends.

Loan Eligibility Prediction

- Performed **data preprocessing** by handling different issues with the data like duplicates, missing values, outliers.
- Analyzed the data by different plots like count plots, distribution plots using **matplotlib** and **seaborn**.
- Used different machine learning models such as **logistic regression, decision tree classifier, random forest classifier** to predict applicant eligibility to get loan. Compared the models using **confusion matrix**.

POSITION OF RESPONSIBILITIES

Captain of Girls Basketball Team

2022-2024

- Led the basketball team, fostering collaborative environment & motivating players to reach their highest potential.
- Represented the team in inter-college competitions, upholding strong sportsmanship & discipline in the events.

Event Coordinator, Aayam

2023-2024

- Designed the entire structure for multiple sports events, ensuring meticulous planning for seamless execution.
- Managed end-to-end conduction of the three-day annual sports festival, handling participation, coordinating with teams, and addressing any issues to ensure smooth operation and success of the events.

EXTRA CURRICULAR ACHIEVEMENTS

- Competed in the national-level basketball tournament at University of Science & Technology Meghalaya in 2022.
- Secured first position in Volleyball at the AIIMS Raipur Sports fest "ORIANA'23"
- Achieved first place in the Aarohan state-level inter-college basketball competition in both 2022 and 2024.
