OBJECTIVE

An MBA graduate with a specialization in Business Analytics, skilled in extracting insights through data analysis and visualization. Proficient in Excel, SQL, Power BI, and Python. Seeking an analyst role to support data-driven decision-making and business strategy.

EDUCATION

PGDM in Business Analytics

2023 - 2025

Institute of Public Enterprise, Hyderabad | GPA 7.8/10

Bachelor of Business Administration (BBA)

2019 - 2022

Badruka College of Commerce and Arts, Hyderabad | GPA 8.76/10

EXPERIENCE

Business Analyst Intern | GLOBALDATA PLC

May 2024 - July-2024

- Performed data collection, validation, and analysis on mining exploration projects using Excel and secondary research techniques. Cleaned and analysed industry data using Excel and Power BI improving reporting accuracy.
- Created and maintained structured databases and commodity-specific reports to support market research. Analyzed commodity pricing trends, production volumes, and market demand to identify patterns.

AREA OF KNOWLEDGE

- Excel Advanced:** Pivot Tables, Lookups, Power Query, Conditional Formatting, VBA Basics
- SQL & Databases:** Joins, Group By, Window Functions, Subqueries, Filtering, Data Aggregation
- Power BI & Tableau:** DAX Functions, Data Modelling, Dashboards, Agile Methodologies
- Statistics & Forecasting:** Descriptive Stats, Hypothesis Testing, Time Series, Regression
- Soft Skills:** Problem Solving, Communication, Critical Thinking, Attention to Detail

PROJECTS

E-Commerce Performance Analysis: Olist Store | SQL, Power BI

- Built Power BI dashboards to track key KPIs, improving reporting efficiency and stakeholder insights.
- Wrote SQL queries to extract, join, and filter large datasets from multiple sources for analysis.

Credit risk Bank Loan Analysis | Tableau

- Analyzed \$446M loan portfolio of 40K+ customers using Tableau; identified 15.37% fully paid rate for credit risk profiling.
- Built interactive dashboards for loan performance tracking, customer segmentation, and credit risk management.
