

DARSHAN KERUR

✉ darshankerur89@gmail.com ☎ 8105145289 📍 Bengaluru, Karnataka, India

Profile

- A graduate (Mechanical Engineering) with a strong foundation in data analysis techniques,including Excel,MySQL,Power BI and Tableau.
- Seeking an entry-level position as a Data Analyst to apply skills aquired through coursework and hands-on projects.

Education

SDM college of Engineering and Technology
B.E in Mechanical Engineering - CGPA : 7.2

Aug 2018 – Aug 2022
Dharwad, India

Chetan PU science College
Intermediate - 65%

May 2018
Hubballi, India

Bapuji International School,Badagandi
SSLC - CGPA : 9.0

May 2015
Bilagi, India

Internships

Data Analyst Intern
AI Variant | Remote

Jan 2024 – Apr 2024
Bengaluru, India

- Conducted analysis of bank loan datasets (39K+ records) using Excel,MySQL,Power BI and Tableau.
- Built interactive dashboards in Power BI and Tableau with slicers and filters for dynamic visual insights.
- Delivered insights on given KPIs and strenthened skills in KPI design, and data storytelling.

Projects

BANK LOAN ANALYTICS

Jan 2024 – Apr 2024

Domain: Finance

Project Description: Bank loan analysis of customers

Dataset Type: Excel Datasets

Data Size: Each Excel Dataset contains 39K + records

Key Performance Indicators (KPIs):

- Year-wise Loan Amount Statistics.
- Grade and Sub-grade-wise Revol_Balance.
- Total Payment for Verified Status Vs Total Payment for Non-Verified Status.
- State-wise and Last_Credit_Pull_Date wise Loan Status.
- Home Ownership Vs Last Payment Date Statistics.

Project Activities:

1.Assessed the data of 2 Excel datasets with 39k+ records each.

2.Implemented KPIs using Excel and MySQL:

- Excel: Cleaned data in Power Query Editor by observing required tables and deleting unnecessary data.
- Created required KPI tables/graphs in Excel using Pivot Table.
- Converted Excel datasets into CSV files for importing into MySQL and executed querries for the same using JOIN, GROUP BY clauses.

3.Implemented KPIs in Power BI :

- Imported and cleaned data in Power Query Editor.
- Merged datasets to create a unified model using relationships and custom columns.
- Created custom visualizations (custom column charts,stacked bar charts,donut charts,line charts,etc.)
- Added slicers for data filtering based on various criteria (state-wise,verified vs non-verified customers, loan status by grade etc.) and slicers for loan purpose,state,credit score,and employment status.
- Created drill-down navigation between visual layers for user-friendly reporting.

4.Implemented KPIs in Tableau:

- Imported data through data connectors in Tableau.
- Built interactive dashboards: revolving balance by subgrade etc.
- Used Parameters and Filters to allow user- driven insights on payment status and credit pull date and for dynamic exploration.
- Designed responsive layout optimized for both executive summary and deep analysis.

DEVELOPMENT AND EXPERIMENTAL FATIGUE RESPONSE OF FRP WASTE SPEED BRAKERS

Jul 2021 – Jun 2022

Final Year Mechanical Engineering Project

- The main purpose is to utilize the FRP waste fibre,where one can significantly reduce the landfill by minimizing land soil pollution.
- In this work,we adopted Mechanical recycling method to extract fiber composite from Glass FRP waste.Thus,the road humps made from this are light weight,more durable,more economical.
- Furthermore,the Manufacturing of speed brakers FRP waste fiber composite and low-cost polyster resin and amino resin was carried out.Further Compression,Bending tests were carried out to determine requiered stength.

Skills

Technical Skills

- Excel: Data cleaning, pivot tables, Power Query, advanced formulas.
- MySQL: Query optimization, transformation of datasets > 30,000 rows.
- Power BI: Created 10+ dashboards with KPIs and slicers.
- Tableau: Built visualizations for datasets with over 40,000 records.
- Statistical Tools: Basic analytics, trend identification.

Certificates

Data Analytics Certification: Certified Data Analyst from ExcelR Institute,Bengaluru | March 2024

Ready Engineer Certification by TATA Technologies

Data Analyst Internship AI Variant Certification: April 2024

Publications

Waste Glass FRP Composite Speed Braker

16 Mar 2023

- Patent application publication of the major project "DEVELOPMENT AND EXPERIMENTAL FATIGUE RESPONSE OF FRP WASTE SPEED BRAKERS".
- Application No.202341017727 A
