

ANEESH PATHAK

BTech Graduate in AI and Data Science, VIT Pune

Pune, Maharashtra | +91 8007820115 | aneeshpathak888@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

Greetings! I am a recent B.Tech graduate in Artificial Intelligence and Data Science from VIT Pune. My passion lies in the fields of AI, Machine Learning, Data Science, Data Analytics, Business Analytics and Visualization, along with a strong interest in Python programming and web development. I approach challenges with an optimistic, solution-driven mindset and continually expand my skills to build a strong career. Recently, I was an AI & Data Science Intern at HTS and served as Management Head of IEEE SB-VIT Pune, leading initiatives and team coordination for technical growth.

EDUCATION

B.Tech AI-DS	VIT, Pune	CGPA:- 8.78/10.00	AUGUST 2021 - JUNE 2025
HSC - 12TH	SP College, Pune	Percentage:- 91.5%	AUGUST 2019 - JUNE 2021

SKILLS

- **Languages:** C, C++, Python, Java, HTML, CSS, Javascript, MERN
- **Tools and Technologies:** PowerBI, Looker Studio, OpenCV, MongoDB, SQL, Figma, ClickUP
- **AI/ML/DL:** Pandas, Numpy, Keras, Tensorflow, Matplotlib, Data Analysis and Visualisation, Excel
- **Soft Skills:** Problem Solving, Team Management, Project Management

CERTIFICATIONS

- Microsoft Power BI Data Analyst Specialization
- NPTEL Online Certification (Funded by MoE, Govt. of India) Big Data Computing
- NPTEL Online Certification (Funded by MoE, Govt. of India) Business Analytics and Intelligence
- Machine Learning A-Z, MS-CIT and Advanced Excel
- German Level - GOETHE ZERTIFIKAT FIT-IN-DEUTSCH 1/ A1.
- German Level - GOETHE ZERTIFIKAT FIT-IN-DEUTSCH 2/A2.
- German Level - GOETHE ZERTIFIKAT FIT-IN-DEUTSCH 3/B1.

WORK EXPERIENCE

AI and Data Science Intern | HTS Tech Solutions JULY 2024 - FEBRUARY 2025

- I worked as an AI Engineer Intern at the company. My team and I worked upon Automation of 2D high Scale Images to 3D Models using different Python libraries and Meshroom Software

Data Analyst Associate Intern | Excelerate DECEMBER 2023 - FEBRUARY 2024

- Worked as Data Analyst and Data Visualization Associate Intern at Excelerate, an innovation and entrepreneurial hub powered by St. Louis University. Collaborated with a skilled team to analyze complex data and deliver actionable insights, aiding company operations and strategy.

Web Development Intern | Anand Constructions DECEMBER 2023 - JANUARY 2024

- I worked as a front-end developer, where I played a key role in supporting the team to design and develop a new CRM software, focusing on creating an intuitive and user-friendly interface.

Manager/Management Head | IEEE-SB at VIT JUNE 2022 - JUNE 2024

- I served as the Manager/Management Head at the IEEE Student Branch, an international committee, for the 2023-24 term. And as an Exe-com Member for 22-23 term

PROJECTS

IntelliMap: AI-Driven Terrain Exploration and Mapping

- Implemented real-time image capture and 2D-to-3D conversion for landscape modeling, aiding military agencies in terrain analysis. Real-time mapping updates elevation maps for precise navigation and reconnaissance.
- Computer Vision and CNN: Uses computer vision and CNN for automatic feature extraction, boosting the efficiency and accuracy of 3D models in military operations.

Best playing 11 Cricketers using Power BI

- Used Cricbuzz datasets from the 2022 T20 WC to create an all-time Best 11 using role-specific parameters. Connected datasets with Power BI Model Connections and built a dynamic dashboard with filters for flexible team selection.

Exercise Position Tracker System

- An AI and DL model that helps users check if their exercise posture is correct and suggests improvements. It also tracks reps but only when the posture meets the correct form

Semantic Segmentation for Aerial Imagery of Drone for Military Purpose

- We developed an intelligent model using UNET and ResNET to classify drone-captured images into categories like Humans, Objects, and Landscapes, aiding military operations in difficult terrains.
